# INTRODUCTION

Permit me to place a few words of introduction before you. To the best of my intellectual ability, I have tried to sort out some of the hidden treasures of Astrology and Palmistry from the Vedas. So far I have published five books which have been acclaimed as being very useful by learned readers who wrote to me about their utility and knowledge ability. I have now another small work ready for being placed before you for your kind reception. I feel deeply indebted to the Lord for all the help given to me all along my struggle to compile this unique work.

In the Nadi Granthas, the Lagna is not considered as of primary importance. A few Nadis consider the lines in the hand and give results. When the results do **not** agree the consultant is instructed to go through the previous or the next chart for elucidation.

Lagna is **helpful** to find out the actual position of a planet on a particular day. Planets are moving constantly. For example, 'A' is born in Aries lagna at the beginning when the Sun was at the very end of **Kanya**. By the time the Lagna moves to the 27th degree, the Sun might have moved into the next sign Libra which is debilitation for the Sun. When we consider the aspect of father of both the births, we will not get the same result. Such instances can be multiplied to show how changes take place even within a few hours. When two deaths occur on the same day, both of them may not have *maraka dasa* operating for them. The same applies in regard to marriages.

Here in the Nadis we take into account: (1) Jupiter for births of children, (2) Mercury for education, (3) Saturn for profession, (4) Venus for marriages, (5) Jupiter's transit over the sign occupied by Ketu for religious travels or pilgrimages.

Saturn is the Lord of Karma (work). He is neither good nor bad. The results depend on the position of Saturn. His transit indicates the changes.

When considering results the sign occupied by a planet, the Lord of the sign, the other planets posited in that sign, the planets in the 7th and 12th to the planet, whose effects are being considered, have to be taken into account for assessing the results. The exchange of signs of

that planet with another is also taken into consideration. In addition the transit of Jupiter is taken into account. He gives the results of the sign he transits.

I have been blessed by Sadhu Bala Krishna Das of Tryambakm Matha and I offer my deep gratitude to him. I have learnt many things from many Gurus as regards the ancient traditional methods of approach for unravelling the mystery of the movement of **planets** in the starry regions, but, I am especially indebted to Sri H.S. **Madhu Rao** (Mysore) who initiated me in the method of Tarka' i.e. arguments for and against for arriving at the final Truth by an analytic method. My humble salutations to all my Gurus.

I have taken some portions from Nandi Nadi and some from Bhrgu Nadi. I have tried my best to explain the final verdict given in the Nadi for various planetary **combinations**.

There are above 500 horoscopes given in this book. The predictions (with analysis) will be found elsewhere in the book. Along with these predictions some other horoscopes are quoted as examples.

Multiplication tables remain the **same** in principle, but its usage can be diverted into any department of Scientific approach to problems of life. Similarly those who follow the arrangement and understand the principles of the NADI after a perusal of this **publication**, will be able to apply the principles to any chart they come across.

Readers who wish to study other horoscopes and make predictions may please follow these **instructions**.

Take the causative i.e. karaka planet of the particular aspect you want to study, consider the adjacent houses of that planet and the seventh house therefrom. Then, on the principles you find applied in this book, you will also be able to make correct predictions.

If the horoscopes you take up for study are different from the ones you find in this book, you may consider such variations as the position of the Moon or Mercury negligible in those horoscopes.

All this has been possible for me with the help of several friends and **well** wishers and I offer my humble *pranams* to them all.

## CHART 1

The Master proceeds to delineate the effect of the placement of planets and the signs on the right hand.

"This native has four *chakras* and another sign resembling a fish in his right hand. The native is born in a *Saiva* community. But, he does not see any difference between *Shiva* and *Hari*", so said *Nandikeswara* to *Markandeya*.

	Mars Asc.		Rahu
Jupt.			
Ket. Moon		Sat. Mer.	Sun Ven.

The disciple wanted to know how to find the community of birth.

The Master answered, "It is possible to know the name too, besides the community. Such is the science of Astrology. You will see that Jupiter is posited in **Capricorn** in *Iswaramsa* sign owned by **Saturn**—and just below there is the Moon representing *Parwati*, and Ketu representing tail. Hence, we infer that the native is a *Saivite*."

The disciple questions why the native could not have a name represented by *Vishnu*.

The Master answers—"The mouth is represented by Rahu. Mars represents horns and Jupiter represents the stomach and Ketu the tail. As Ketu and the Moon are in the same sign a '*Kshiramsa Sambhuta*' indicates one born in the Ocean of Milk (*Parvati*). Thus, the nature of the personality describes a Nandi (Bull). The name may be that of *Shiva's Vahana Nandi*."

The disciple wants to know if it is possible for **everyone** born on that day to have the same name. The Master answers that it depends on the circumstances of each case. The names can begin with the first letter of **Nandikeswara—Names** can be chosen from the other names of *Nandi* like **Vrishabha**, **Basava** etc., either with the first letter or letters occurring at the end of name, thus, indicating some sort of affiliation to '*Nandi*'.

Now, the native, whose chart is being studied, has a lean body. The native's father is an agriculturist. He will also amass some wealth. But, the strange fact is that this money will be distributed to the other brothers of the native and the **parents'** own brothers.

The disciple wonders at this and wants to know the reasons on which this judgment is based.

The author admits that detailed method of forecasting would involve great expenditure and trouble, so only in this case it is being given, but the rules of the reading are the same for all charts and mostly it is the '**Karakatwa**' that holds the key for the reading.

The Master answers that as the Sun representing father is posited in Virgo, a sign of vegetation, good crops etc., so we infer he is an agriculturist and as he is in conjunction with Venus, he must have amassed some money through his profession. Further, Saturn in the second house to the Sun, aspected directly by Mars, clearly indicates one owning some lands. The Sun has his own son Saturn next to him aspected by Mars representing brothers to the parent. Saturn is also in conjunction with Mercury. Hence, the parents' money will be shared by his brothers and sons.

The disciple wonders why Mars placed in the 8th to the sign occupied by the Sun should be the cause for the brothers sharing the money.

The Master answers that as Mercury and Venus have exchanged signs, Venus, who is in **conjunction** with the Sun, gets his own **ansa** in Libra which is directly aspected by Mars in Aries, the parent gives away the money (**Venus/ansa**) to his brother whose *Karaka* is Mars.

The Master **continues—The** native is the second **born**. He has *one* sister elder to him, and has five brothers and a sister born after him. The Master gives the clue for the numbers of brothers and sisters.

Here, Jupiter is in Capricorn all alone. There is the Moon in the previous sign to the one occupied by Jupiter. Hence, he has an elder sister. Jupiter represents the native, and in his transits he crosses (1) Mars, (2) Rahu, (3) the Sun, (4) Saturn and (5) Mercury. So he will have five younger brothers and as there is Venus over which Jupiter transits in his first round, he will have one younger sister.

After this, the Master takes up the regular transits of Jupiter from birth and indicates the ages at which the native suffers from disease, obtains happiness and indicates marriage, birth of children *etc.*, during several rounds.

In the first round of 12 years, Jupiter, when he enters Pisces, has the aspects of retrograde Mars in Aries and so the native will suffer from wounds and swelling on account of pollution of blood. The child's age then would be 3 to 5 years. This includes transits in Pisces and Aries for one year in each sign. The child will suffer from **windy** troubles in his 6th year when Jupiter transits Gemini where Rahu is posited. The native **will** get well from all these ailments. About the 9th and 10th years when Jupiter transits Virgo owned by Mercury and Libra owned by Venus and both having exchange of places, the child will escape drowning.

At 14-15 the native will make a headway in his education when Jupiter transits Pisces and Aries, in his second round.

The disciple wants to know if the native will not have difficulties in his educational career on account of the aspect of Mars on Mercury.

The Master **says—You** have put the intelligent question, but you have failed to ask why the native got over the troubles from wounds and windy troubles at the age **14-15-16**. I will explain now. Though Mars causes **wounds** and Rahu causes gas trouble, Jupiter's transit of Aries and Taurus is opposed by Saturn and Mercury in Libra and as they are enemies they hinder both Mars and Rahu from causing trouble. For the same reason though Mars and Rahu may hinder, the aspect of Mercury occupying the house of Venus and having the 9th aspect of natal Jupiter from Capricorn helped the native in his educational career during the transit of Jupiter in his second round.

As regards the disposal of the extra savings by the father, the Sun representing father of the native is in conjunction with Venus, but Venus is

debilitated and weak in **Virgo**—so it is clear that the father had paternal property in the shape of lands, but it was not much as Venus was weak.

The placement of Mercury and Saturn in the 2nd to the Sun indicates sources of income. But both the planets are opposed by a strong Mars who is an enemy and so the income was meagre. That the father spent lavishly is explained by the fact that the Sun is conjunct Venus who is vain-glorious and so wants a royal type of living. (2nd Lord to the Sun's position).

In the Nandi Nadi at the beginning of **sloka 5** a mathematical symbol is shown as 3 4 4 5. The sloka says that the native will have break in his studies at 17 and incur heavy expenses, and the elder sister of the native will pass away at that time.

During the second round of transit, when Jupiter contacts Mars (3rd from the Moon), both being aspected by Mercury (4th) and heavy expenses are indicated. Further, Jupiter contacts Rahu (a retrograde planet) at the age of 17-18 and causing many troubles and miseries. The Moon representing elder sister is in the 12th to Jupiter's placement at birth. The Moon's movement and contact with the retrograde Mars and Rahu, who is always retrograde, results in the death of elder sister.

At **22** when Jupiter transits Mercury's exaltation house Virgo, his educational activity will take an upward turn and conjunction of Venus in that house and entry into Libra owned by Venus, indicate that marriage negotiations would take place.

The disciple wants to know the nature of education the native will have before going into the question of marriage.

The Master answers **thus—As** Saturn, is conjunct Mercury (in the house of Venus) who stands for Arts and as Mars who stands for Engineering and Machinery aspects Saturn and Mercury, one has to infer that the native may take up a profession in Engineering and work in an educational institution.

After transiting Gemini, Jupiter in his 3rd round contacts Venus in Virgo which happens around the native's 30th year, marriage is likely to take place. Immediately, thereafter, Jupiter contacts Saturn in exaltation in Libra and so **the native** will be employed in a Government Institution in a gazetted rank. -

The disciple wants to know why here importance is given to Jupiter which is not the case usually as the question of livelihood is considered from Saturn's movements in most of the cases.

**The** Master answers while work done is the result of Saturn, the enjoyment of the result is ascribed to Jupiter who represents the soul. The transit of Jupiter oh the Sun and Venus was transmitted by them to Saturn placed in the 2nd house to them (owned by Venus also) and this leads to vitalizing Saturn **conjunct** Mercury which shapes the life by **offering** a high post in a Government Engineering College. This is further augmented by the fact that Jupiter contacts the Moon and natal Jupiter in the next house. These dispositions bestow an exalted position to the native.

Jupiter, when completing **the 3rd** round, will have travelled for 36 years and offers name and fame to the native at that age of transiting his natal position. When in the **4th** round Jupiter transits his own house Pisces, he gets the aspect of Venus from Virgo conjunct the Sun, the native will get into possession of parental property. Immediately after this Jupiter contacts Mars in Aries and Rahu in Gemini and about the years 41-42 he gets opposition from those in highest position. Then, when Jupiter conjoins Rahu in Gemini he gets the aspect of the Moon in Sagittarius and enabling the native to go on foreign travels. The very next house Cancer is an exaltation sign for Jupiter and the Moon owns it. Therefore, the foreign travels will continue until Jupiter crosses over Leo owned by the Sun. When Jupiter contacts the Sun in Virgo, the native will get a higher job on return from foreign travels, and higher emoluments and will go on improving his status until Jupiter **completes** his fourth round at 48th year. This will go upto 50th year when Jupiter reaches Pisces.

As regards children Jupiter's contact with Venus at 33 gives him a daughter, and when Jupiter transits his own place at birth at 36 the native will have a boy. These two children will be very lucky.

We now come to the last chapter of this life story when Jupiter contacts Rahu in his 5th round. This will be when the native will attain the age of 53. This transit will cause death of the native.

Salutations to *Sree Nandikeswara* for this elucidation of the planetary positions at the time of **birth**.

This same principle will be followed in delineating the results of other charts **also—importance** being given to *Karakatwas*.

## CHART 2

Jupt. Sun Dt	Sat Moon	Mars Venus	
Mer.			
			Dh

In this chart Mercury, signifying education, is positioned in Acquarius and Jupiter is placed in the next house along with the Sun and Ketu. The native will, therefore, be a legal expert, kindly in temperament and will gain much knowledge in some other subject besides law. He will earn fame.

He will have brothers. Further with the placement of Mars and Venus in the 2nd house to Saturn, he will own house, have conveyances and earn well. He will not only be responsible for deciding disputes, but also get involved in disputes himself.

The disciple **questions**—"Rendering legal aid in disputes is all right—But with whom does he fight?"

The Master **answers**—He fights with Mars placed in the second house to Saturn. As Mars is conjunct Venus well placed in Taurus, his own sign, he will also earn well in all the disputes and feuds he faces in **life**—

While the native is fighting, the Moon moves out and elopes with Venus (**conjunct Mars**), the Moon having received air from Saturn (opponent of Mars) in debility, the person who eloped with the native's wife (Venus) is a low caste man (debilitated Saturn).

The disciple **queries**—"When the Moon and Venus become conjunct in Taurus in a mother and child relation, what does Mars do? Will he be inactive?"

The Master **answers**—With Mars-Venus conjunction before the transit of the **Moon** in Taurus, the native's wife would have given birth to male child and only later she goes away with the *Chandala* in elopement. Venus transits Cancer in the 3rd year and Virgo in the 5th year **after elopement**—**These** are hard times for the native's wife as Venus is **conjunct Rahu** in Virgo. It is only when Jupiter transits Leo, the native will be happy as his wife will come back and he will live upto a good old age of 72. Thus, we do delineate married life. But great care should be taken in making such predictions.

The disciple **questions—Guruji**, can we know from the child's chart that the boy **born** to the native before 'the mother's **elopment** will be denied the motherly care and love for some years? Kindly elucidate, if you have details?

The Master **answers—In the** year named '**Soumya**' (one in the 60 year cycle of reckoning), there will be a day when the Moon and Saturn will occupy Aries, Ketu will be in Leo, Jupiter in **Libra**, Venus in Scorpio, the Sun in Sagittarius alongwith Mercury and finally Mars and Rahu in Aquarius.

As Jupiter has Saturn in 7th **from** his placement the native is good minded, and **Satwic** in nature (as opposed to **Rajasic and Tamasic**)—**As** Jupiter has no place in the previous house and there is Ketu in Leo, he happens to be the eldest (first bom). This child's father, the Sun, when in his movement forward meets Mars and Rahu in Aquarius, and then again **Saturn** and the Moon in Aries, he will earn **livelihood** through machinery and judiciary (**settlement** of disputes between the employees and employers owning Machinery).

Now, as regards the child's mother (the Moon) there is Saturn's conjunction. Saturn and Mars have exchanged their signs. The Moon gets the **Daityamsa** (demon's quality represented by Mars **conjunct** Rahu). This explains the activities of the mother as stated at the beginning in detail.

Further, between Jupiter (the child in question) and the Sun (father), there is Venus in the middle in the child's horoscope. Hence, the relationship between father and child **will not** be very happy (Jupiter and Venus are enemies). The chart of the child is given **below**.

**CHART 3**

The disciple **questions—Guruji**, "Are we to take it that in every case where the Moon is conjunct a malefic, and there is **Parivar tana** of that planet with another, there is likely to be a bad history behind the mother?"

The Master explains **the** correct position.

## CHART 4

Sat Moon		Ketu	Sun Venus

Here is a typical chart—Moon is conjunct Saturn (*Iswaramsa*) and the Sun is conjunct Venus. When Jupiter, who exchanges places with Saturn moves to Pisces in his rounds, he conjuncts with **both** the Moon and Saturn. The transit indicates phlegmatic and windy troubles for the mother (the Moon) as well as the native (Jupiter). So, we cannot have the same results always. The

particular place of conjunction, the planet involved and other influences based on *Karakatwa* have to be taken into consideration to come to proper conclusion. One must be extremely careful in arriving at conclusions by taking a comprehensive approach.

## CHART 5

The Master further explains the **method—Referring** to this Chart here is another similar type.

This native was born in *Roudri* year on the **11th** day after the commencement of the month with Aquarius, as Ascendant.

The conjunction of Mercury and Ketu made him intelligent. He lives in a capital city and has won name and fame (the Sun and Saturn in Leo). Mercury receives the aspect of Mars and Rahu from Pisces. This made the native dogged, persistent and very **proud**—He was always for retaliation. Venus representing the native's partner is conjunct Jupiter who has exchange of signs with the Moon in Sagittarius. So, there is a blemish on Venus and the native's wife being duped had relations with a person other than her husband.

The Sun-Saturn combination indicates Government. Mercury exalted in Virgo aspected by Mars in Pisces indicates mastery of machinery. So he will hold a **high** post in water supply engineering **department**

CHART 6

This native will have many brothers and sisters, but very few will live long as there are many inimical forces combined.

The native's father, the Sun, is in Gemini with Venus. Mercury is in the 2nd house to the Sun. So he will be trader dealing in many things. The native is intelligent, but will have only ordinary education.

			Sun Venus Moon
Dh			Mer.
Sat.			Jupt. Dt
			Mars

I will tell you something about his previous birth—**The** native in the previous birth was born when Jupiter was in Cancer (house behind the one occupied in present birth). It is occupied by Mercury. He was a trader in the previous birth and had all kinds of wealth, houses and conveyances—**One** day he visited the temple of *Raja Rajeswari* in his town. He witnessed a young girl (the Moon just coming out of conjunction with the Sun) at the doorway with a smile on her face. He was very much attracted by her, and seduced her. The Goddess was infuriated and gave the native a blow on his back (Jupiter midway between Mercury and Mars) and cursed him to have a dark mark on his back and live a miserable life in the next birth. So, in this life the native is plodding on with little income and a perturbed mind—**He** will go on changing professions. Saturn contacts Rahu at first, then Venus and the Moon who exchange places with **Mercury—Hence**, he deals in drinks and dresses and will carry on business in various places. He will also deal in conveyances for the same reason as an employee in that concern. The wife of the native will be sickly. He will get a bad name and will incur financial losses.

The disciple wants to know what happens when the Sun moves to the next house Cancer owned by the Moon and the Moon moves to Leo and, therefore, will have exchange of places with the Sun and will contact Jupiter placed there at birth. Does this have any specific significance?

The Master answers—**The** Sun, father of the native, visited the *Palanin* temple. He was induced by his friend to seduce a woman there (Jupiter's conjunction with Ketu" indicates the deity *Subramanya*). As a result of this

sinful act, he will be born in a low caste family and undergo trials and tribulations in his life.

### CHART 7

In this case, life sustainer Jupiter is in Aquarius and the Moon in the seventh house therefrom. So, the place of birth was full of fine drinks. With Ketu behind Jupiter, there was a pilgrim centre near the place of birth—The native has brothers and sisters. His elder brother passed away early in life (Mars in transit comes across Rahu first). The native will have a steady educational career.

The Moon and Jupiter aspecting each other make the native a philanthropist who will win over his enemies.

In the house next to Saturn the Sun, Venus and Mercury are posited. He will get a decent job, earn well, have conveyances and servants and live a harmonious life. The wife of the native will, however, suffer from some serious disease. This can be overcome by pilgrimage to *Hardwar* ; or *Rameswaram*. When Saturn transits Libra the mother will suffer ill-health.

### CHART 8

In this chart, life propeller, Jupiter is conjunct Rahu. There will be a dilapidated wall by the side of the house in which the native was born. As Mars is posited next to Jupiter, there will be houses adjoining the birth home. The positions of Rahu and Mars indicate the native to be a brave man. He will be handsome and as Mars is aspected by Venus he will get riches through his wife.

As Jupiter transits **Mars** first and Saturn next, the native will have two brothers younger to him. The first brother (Mars) has Rahu and Jupiter in the

previous house and Saturn in the 4th house from him and Ketu in the 6th. Hence, this brother will take up *Sanyas*. The native had committed sins (*Daivadroha*) in the previous birth, and in order to obviate suffering he should perform 48 *Somavara Vratam* (a religious ceremony performed on Mondays). As a result of this, he will achieve fame in the government sphere and be free from ill-health. He will live a happy life with his wife and two children. He will have money, conveyances, houses and spend a harmonious life.

### CHART 9

Jupiter is exalted in this case and so the native has a well-proportioned body with golden colour.

Mars and Venus have exchanged signs and Venus conjunct Mercury indicates that he will have sex relations with many women.

As Saturn contacts Venus and Mercury first and then the Sun, Mars and Rahu, he will be a money lender and dealer in jewellery. Since Venus has the Sun and Mars next to him, the native will acquire paternal property also (legacy). He will have servants and his own agricultural products. He will have one wife and live **happily**—He will have one son.

Jupiter's placement in exaltation and of Mercury and Venus in Aries, indicate that the native will become more famous than his father and richer **too**.

The representative of mother, the Moon, is in Virgo. She will be beautiful and the Sun in the Moon's exaltation sign shows her **faithfulness** to husband.

When he is 34 **and** 46, he will get into disputes on account of money **lending** business. The conjunction of Mars, Rahu and the Sun indicates trouble from **leprosy**—but he can be free from this disease by propitiating God.

In this case, the native's previous birth is indicated by the placement of Jupiter in Libra, the sign behind the one occupied in the chart. Here, Rahu is about to pounce upon Venus. This indicates a widow. Venus, before transiting **Libra**, will contact the Moon at the same point and so the widow would be a relation of the mother of the native. She would be beautiful. The native would have illicit connection with that widow resulting in pregnancy. He would then bring some poison and give it to the **girl** to destroy pregnancy. Venus representing her meets his enemies the Sun and Jupiter in the next house to Libra and so she would become very weak and die as a result of poisoning. For this offence the native had to undergo living in *Naraka* and after that got this birth. The remnant effects will give ill-health to his children, trials and troubles in life. He, too, should perform the *Somavara Vratam* (religious performance on Mondays) to get relief.

He will have good education, own landed property and **money**—He will have two boys and two girls and also see grand children.

## CHART 11

As Saturn contacts Rahu first and Mars next, the native will take up wood sawing as his profession (**Rahu**, Mars indicate dry wood and the Sun-Venus conjunct, Mercury next indicate a clever

His previous birth **is** indicated by Gemini and **Jupiter**. Mars is in Gemini and is aspected by Saturn in the seventh **thereform** and Rahu in the twelfth. He would have done a lot of immoral acts on account of his endless ambitions. He **would** also have committed robberies and duped many • including high government **officials—So** the effect of all this is that there will be delay in **having** his own house in **this life**, father's loss at an early age, enmity with relations, trials and troubles to **wife**, and his mother. By *Japa* of **Narayana Mantra**, coupled with **Homa** (offering to Fire) and charity to *Brahmins* he will have **relief—His** son will be a learned scholar and will help his parents in old age and earn plenty of money.

**CHART 12**

The **native** will have one brother and three sisters. He will have only medium education as **Jupiter** contacts his enemies Mercury, Venus and Ketu around his 12th year.

The Sun has Saturn and Venus in the next house. So the native's father will also have some enemies. But the Sun's transit in that sign has given him power as it is his exaltation sign and so he will win over his enemies. He will get landed property and cash. As Venus is in the house of Mars, his partner will come from his native place. As seen here, Ketu behind him in **Sagittarius**—the Sun being in a watery sign Pisces, the father will complete a pilgrimage undertaken by him and thereafter end his terrestrial existence.

As the Moon is placed in her own house and conjunct Mars, Rahu being behind him in **Gemini**, the mother of the native will have some troubles in her life.

As Jupiter and Saturn have exchange of signs and when Jupiter transits Sagittarius, his own house, the Sun will have his friend Jupiter occupying his own house and so the parents of this native will come into possession of some **property**. Mercury and Rahu being followed by the Sun, it is likely that one of the children will settle down in a foreign country.

His

Mercury is in conjunction with Mars (his enemy) and so he will face trials and disappointments in educational career. All the same with Ketu in Virgo owned by Mercury, the native will be well versed in three languages. With the Sun and Mercury placed after Saturn, the native will have gains through his father. He will have **troubles through** two persons in gaining the paternal property and may have to go to a court of law. Just after 57 upto 63, he will **have** good financial gains. **But**, between 69-70 his own children **will** give him **trouble**. Between 68-71 he will perform many good' functions like marriage etc, in bis house.

The disciple asks "What is the result of the Sun being placed between Saturn and Mars?" The Master says the native will suffer a lot but his power will be hidden in his mind and so will get several things done. He was born in a place where there were no neighbours on either side. Jupiter being aspected by Saturn in 7th from him shows the native as an '*Iswaramsa Sambhuta*'. He is one wedded to both *Dharma* (moral principle: Jupiter) and *Karma* (action: Saturn).

As Jupiter contacts Rahu first in his movement and then Mars the native also will possess knowledge of *Mantras*— Although, Saturn is well placed in the house of Fortune, the second

He will start with writing until the influence of Mars and Ketu is over and when Saturn contracts Venus in his own house, he will come into lime light. As Saturn contracts Mercury and the Sun in the next house, the native will enter into a treasury section and obtain great name and fame but he will have only very ordinary comforts. One of his brothers will be a great *Pandit* (learned man) and will occupy a high position. This troubled life will continue upto his 60th year after which the native will get some financial help from his wife's side. When transiting Leo, Libra and Scorpio, Jupiter will provide occasions for marriages etc., and the native will own a house. Some day, he will be the head of a religious institution. Hence, the native will be intelligent and will have regard for elders\*Including him five brothers and sisters constitute the progeny to his parents. The Sun in Sagittarius with Mercury indicate Godly father with great learning. The father **will** have

Venus in the 2nd house to Ketu and Jupiter indicates wealth got through his **wife**—**The** conjunction of Mars with Saturn indicates great troubles in the period during the second round of **Saturn** (i.e., after 38th year). This will be when Saturn moves out of Aquarius. When Saturn visits the Sun and Mercury in Sagittarius there will be little comfort and strained finances. Capricorn is a better place for Saturn's transit as it is occupied by Jupiter and **Ketu**—**That** period will be good in **all** respects. When Saturn transits Aries he gets the Moon's aspect (this will be in the native's **42nd-43rd** year). Till he reaches Cancer the native will have ill-health, **ill-fame** and he will wander about miserably. He will be committed for robbery but will come **out** unscathed by the help of his brother (Mercury in 2nd to Mars). When Saturn transiting Cancer, Jupiter's aspect improves his finances and he will enjoy good times.

All the above troubles arise because **of the effects** of the previous birth when Jupiter was in **Sagittarius** and the Moon in Libra both moving in their debilitation. Saturn and Mars in the 2nd house to the Moon indicate that in the previous birth the native had wrenched away all wealth from his mother and given much trouble to her and she cursed him and died. Propitiating the Goddess at **Madura** with religious sacrifices, feeding and giving presents to five **Kanyas** (Unmarried girls) will give him great relief from the present troubles.

In his present life, the native will be employed in a factory of **iron** machinery and he will have good times from 50th year onwards. One of his brothers will attain great fame (Mars, Mercury and Jupiter in consecutive houses). Venus in the 2nd to Jupiter indicates that the native will be known

His daughter will be very rich. (Venus next to Jupiter). His wife will not have a full measure of health. She may be suffering from piles and urinary trouble.

The native will lose his father at the age of 47-49. His mother will predecease her husband (Rahu in Cancer far away from Venus with no planets in between). As Venus meets the Moon next after meeting Rahu, the mother witnesses the passing away of a daughter.

From the age of 54-55 the native will improve financially a great deal and perform marriages etc., during that period. About 58-59 he may go to foreign countries. He may have losses in his 60th year—but there will be happiness. From 61 to 70 he will have a very propitious time—He will enjoy peace of mind and have conveyance etc. His wife will be ill at 69-70 but live upto 73. He will live upto 74-75.

Jupiter representing the life forces has planets in both the previous and next houses. The native has brothers and sisters as Jupiter is in Capricorn with Ketu. Hence, there will be accrual of money

The Mercury transits Saturn and Mars in the course of his rounds. So his educational career will not be smooth and will be full of obstacles. Between 18-24 the native will wander about aimlessly. He will be in a low position from 18-24. He will settle down between 24-26 years, when Jupiter transits Ketu. He will be married in his 27th year. The partner will be a religious lady and beautiful. She will face abortions as Venus is conjunct Ketu and the inimical Jupiter in debilitation. Both Saturn and Venus are weak

in this chart. So also is the Moon who just emerges from the Sun's conjunction. The native will have 3 boys (Sun, Jupiter and Mars), who may not be long lived. His daughters will not survive. In his 54-55th year, his son will attain a good position and will have **advancement** in life. The native will retire between 56-57. He will suffer from piles and wind troubles. By his 60th year all his children will have settled in life. Between 59-60 he will visit holy places and go round on pilgrimage. His 63rd year will not be good for his wife. The Moon in the 2nd and Ketu in 3rd from Saturn indicate *Sanyas* (renunciation). He will acquire great wisdom in his wanderings. His family life will not be happy. His efforts will be mighty but all in vain as he will be ridden with desires. Although he will have plenty of debts, at the ripe age of 56-57 he will come to a good position. This native has Saturn in Libra, Ketu in Sagittarius aspected by the Sun in Gemini and Jupiter in Aquarius. So he will have a high Government job. Mars is in Pisces. This shows financial gains through lands. Then again about 30-31 he will get money through his sister or wife. He will be married among his own relations since Venus is in his own

house. Jupiter retrograde aspecting Capricorn shows that the native's mother had trouble when he was young and he himself had to overcome great difficulties, with the help of relations. The aspect on Capricorn by Mercury, who is posited next to the Sun, indicates his father to have come into possession of a house and to have overcome his troubles too.

As there are no planets behind Jupiter except Ketu, the native had no elder brothers and so he was the eldest born. The father **would** have been forced to marry a girl whom he did not approve. It was a forced marriage as the Sun is conjunct Rahu.

The native will have brothers and sisters. The native's father had a lot of troubles, when young, caused by his cousins. The father was greatly devoted to God and was learned in *Vedas* and *Puranas* (ancient religious lore).

Mars in Pisces transits **his** own place Aries which is also exaltation point for the Sun. As the next house Taurus is occupied by Venus, the native amassed wealth when his sisters were in great trouble. Mars' position in the 2nd to Jupiter makes the native dogged in nature and one who creates tense situations for making money. While Rahu comes to gobble up Venus, Mars helps him and enables him to avail of this opportunity to amass wealth.

In his 40-41st year, the native comes into possession of an old house, when Jupiter during his fourth round transits Mercury. Rahu has just passed away from Mercury. During the 5th round before Jupiter leaves Cancer the native's wife will pass away. When Jupiter transits Sagittarius he will retire from service and suffer from coughs, colds and piles.

The disciple wanted to know why the native would suffer from cough and the Master answered as follows:

In the previous birth the native gave a blow to a calf which had come to graze in his fields and as a result it died. Hence, the native will suffer from suffocating cough as the calf suffered. This could be remedied by feeding *Brahmins* and giving away a cow in **charity**—or visiting *Gokarna* (a religious place). But, all that will not appeal to the native.

The disciple wanted to know how this could be read from the chart. The Master says that Jupiter's retrogression to Capricorn which is exaltation point for Mars, shows that the native was born as a *Kshatriya* in the previous birth. Being in Aquarius Jupiter's retrogression to Capricorn shows the cow and **calf**, Mars and Pisces indicate horns and Ketu in Sagittarius show the tail. Mercury's aspect to Capricorn indicates green fields. Jupiter's placement

Between Mars and Saturn indicates the dilemma for the man when he acted rashly and killed the calf. •

The native will face trouble at 53 through his wife's ailment and will go to a new place and begin to earn and will live upto 68-70 age. More details can be had from his son's chart which will be discussed later.

### CHART 45

The native is a simple type of person with medium education. The native's father was a preacher and had good yields from landed property. Since, the second house to the Sun is aspected by Jupiter the **native** will migrate from his native place of birth. When engaged thus, at about the age of 34 he will marry a widow.

The disciple wants to know the result of the disposition of Saturn in Scorpio; debilitated Venus in Virgo aspecting his exaltation house Pisces. The Master says that Venus does not fully aspect the sign Pisces. This native will have good time when Saturn transits Leo in his second round which comes at 52-53. With Ketu in the 2nd to Saturn and the Sun in 10th in Leo, the native will gain much through

Government. From 52 to 62-64, he will **have** good times. The native **will** have three to six children.

### CHART 47

In this chart, Mercury is in conjunction with Ketu. The native will be well read and attain great position, but the progress will be retarded as Saturn is posited in the same sign. He will be a religious teacher as **well**. He will

have brothers and sisters. A joint worker will be a friend of the native.

The disciple asks whether in view of the conjunction of Mars and the Sun, the native will ever be married.

The Master answers that there is a special *Yoga* here. Here Mars is posited in the sign of Venus. So Venus represents the partner for this native. The Sun is debilitated and is conjunct Mars. With Venus in Leo the Sun's own place, he will elope with some one's wife and will have a child by her. But, he will try to convince the husband that it is his child and gains some thing by going to a court of law. The presence of the Moon between the Sun and Venus indicates the whole affairs to be a planned one of seduction and duping the husband of the woman. The Moon's presence in the second house to Venus indicates the progeny of the lover.

The disciple says why the native did not have marital happiness and why he had to go to a Court of Law. The Master says it is the result of sins committed in a previous birth when he eloped with a woman coming from a rich family and after having killed a child. The woman could not bear the shock and ended her life by drowning herself in a well, but before that she cursed the man. The result was this troubled life. The trouble could have been avoided by propitiating the Almighty and giving clothing to girls aged below 12 and worshipping them. The native will live upto an age of 74.

Here Mercury is in Libra and the next house is occupied by Saturn. Hence, the native will be a merchant by profession. As Saturn is conjunct Ketu and, Mercury is associated with the Sun the place of employment will be a co-operative concern.

The owner of the second house to Saturn is Jupiter who is placed in his own sign **Pisces**, aspecting Venus in Virgo. The native will have favourable results only from the year Jupiter

transits Leo. At first, the native will be in a temporary post and he will later shift to a higher permanent post. Good times come from 25-26 years of age, when Saturn transits Pisces and gets the aspect of Venus from Virgo and the aspect of the Sun and Mars when he transits Aries. He will then come to his own house and will get promotions in his career. He will have three daughters on account of **Saturn-Ketu** conjunction and Venus aspected by the Moon in conjunction with Jupiter. Because Jupiter being posited in his own House he will be blessed with one boy. The native will be well read and will have good times from 40 to 54. He will live upto good old age of 70 years'. He will suffer from colds and his death will take place at a place other than some where else the one where he spent his old age.

### CHART 50

In this case, Mercury conjunct Venus indicates a learned man. The native will have brothers and sisters. He will be married between 20-24, get a good job at 30 and get promotion in 31-32. He will have 3 sons and 2 daughters. The native will be **afraid** of serpents as Jupiter transits' Rahu. Being placed in his own house Jupiter provides necessary removal of fear. He will own a

house between 45 and 48 and perform marriages etc., at 54. Jupiter in Pisces indicates visit to holy places, even his birth place. His progeny will be well educated and live happily. The placement of Rahu **next** to Jupiter indicates wind troubles and nervous weakness.

**CHART 51**

If the native be a male, he will be well educated, employed in the field of machinery and will occupy high post. He may not have a happy married life.

If she be a woman, she will not be happy with her husband. The partner will be entangled in quarrel with enemies and will experience misery. This will come about in his 36-37th year. Jupiter's **transit** over Venus in debility and later crossing over Saturn and ketu indicates that she will get some **help** from Government after her husband's death and **also** come to possess some landed property. She will also have one son who will be very helpful to her. She will live upto 66 years of age.

Saturn **transits Jupiter** first in Aries. This denotes a position of importance in Government. The job will be in an educational department. Till about **26-27** there will be no eminence. When

Jupiter transits Virgo where the Sun is placed/the native will get promotion and will also have reverses, when Saturn transits Jupiter in his 2nd round, he **will** be defamed. When Jupiter transits Virgo and Libra, he will be reinstated and rise high. This will be at about 54. Times will be good upto 61-64. Again at 62-63 the times **will** be unfavourable and after 65 upto 75 the period will be good. He will have 4 or 5 children.

Two of them (girls) will be very fortunate. They will hold high posts in medical line. The conjunctions of Mercury and Venus; of Saturn and Ketu indicate knowledge of law. The disciple wanted to know the result of Rami's placement next to Jupiter. The Master said that the parent (father) of the native (Sun) is in Virgo, a friendly sign and Mercury conjunct Venus indicates the father having relations with a *Sudra* woman besides his own wife.

With Mars in Gemini, he will later on take up printing, machinery work and do business and earn considerably. One son will occupy a Judge's position and another will follow the father's profession. Saturn in Scorpio with Ketu will give knowledge of the eternal to the native. The Sun in 11th to Saturn shows a Government job. Jupiter, Rahu and Mars in consecutive houses show accounting relating to conveyances and earning therefrom. As there are no planets behind Jupiter, he has no elder **brothers**. He will have 5 or 6 brothers and sisters all younger to him. One of the brothers will be a dogged

type; have medium education and have no one to **help** him. The second brother is represented by Mercury who has Saturn and Ketu next to him. This brother will have mental aberrations. Venus-Mercury conjunction shows that his wife will be a dullard with **poor** memory as Ketu is placed in the second house to them. He may have 2 daughters and a son. The Master **answers—Here**, the Moon is in debilitation and Rahu is in inimical Aries owned by **Mars**, Jupiter is, therefore, unable to render any help to the Moon. As Venus and Jupiter have exchanged places, Venus influences the 7th house to the Moon and so the mother of the native will have

abortion. May be, she gave birth to a girl-baby which did not live long. The disciple wonders as to why Venus in the second and Jupiter in 7th from the Moon did not offer any good result. The Master **answers—The** lonely position of Jupiter on one side of the **Rahu-Ketu** axis with all the other planets on the other side has made the native wander about and have impediments in education. He will go to a foreign country. The Sun's position amidst enemies, and Venus conjunct Mars (his enemy) has made both the **Sun** and Venus weak. The mother will have money as a result of good position of the son in foreign countries. The grouping of Saturn, Mars and Venus next to the Moon shows that mother's money will be lost to others. The transit results are given now in detail. -

The retrograde Rahu takes about 6-7 years to reach the Sun's position in **Sagittarius**. That will be the time when the father will have many troubles. The Sun's conjunction with Mercury indicates the father to be a manuscript writer. Jupiter in his turn transits Sagittarius at the age of 6-7 of the native. So, the father will have **Darshan** of great souls. The native's education will continue upto 11 when Jupiter transits Rahu and so the native will discontinue his studies. Education will continue in Jupiter's second round from Taurus to Sagittarius and Capricorn. He will have obstructions thereafter. Education **will** be regularised and will continue till Jupiter reaches Rahu. The native will suffer from ill-fame, loss of finances. Then, when Rahu reaches Gemini, the aspect of the Sun and Saturn get him a **Government** Job. When at 31, Jupiter transits Scorpio he will have a change of place. After Jupiter crosses Ketu the native will get married. At 36, when Jupiter transits his own place, he will have a promotion and transfer to another place (the Moon's aspect to Jupiter). He will have promotion at 48. At 54-55, when Jupiter transits, he will have improved finances, and Jupiter's contact with Mars and Venus will offer him Houses and family pleasures. Mars representing brothers has 3 planets in the 7th from his position. Mars has *privarthana* with Mercury (exchange of houses) and one planet in the 3rd house from his position. This indicates *Ekadasa Sahodara* (11 brothers). As regards sisters, the Moon and Venus indicate 2. The elder sister will pass away and the younger represented by Venus in *Kumbha* will survive. Life and service is represented by Jupiter and Saturn. Saturn aspects Venus and Jupiter and Saturn are aspected by Mars. This brings failure to service represented by Saturn. Jupiter finds it difficult to help, being opposed by Venus and Ketu. Because of his meddling with women, the native will get disturbed in mind and will **then** try to commit suicide by taking poison. Venus being conjunct Ketu (who moves backwards) saves the native. This happens between 18th and 20th years or 23rd year. This mania for women will take the native away to outside places.

The father would have undergone troubles at the time of birth of this native as Jupiter is situated in Libra, the Sun's debilitation sign. The father had some landed property indicated by the Sun's conjunction with Mars and Mercury. The Sun's placement in the Moon's house shows that the father was in a female's house (**in-law's** house) as Venus is conjunct Ketu. The **Moon-Venus** opposition is not a happy combination for the native.

The native's mother will not live **long** (**Venus** conjunct Ketu); Venus

Lord of the house occupied by Jupiter being in 2nd to the Sun, the 3rd wife of the father becomes the foster mother to nurse the native.

The native represented by Jupiter has Rahu-Moon in 5th house. Therefore, the mother, who gave birth, died in his 5th year. About the age of 9-10, the native's father came by vast fortunes through various means and even through foreign commercial relations. This is due to the Sun conjunction with Mars-Mercury in the 10th house from Jupiter, the disposition of Venus-Ketu in the next house to the Sun.

The disciple asks that in similar cases before he was told that the association of the Sun and Mars causes Venus to become weak. However, a different interpretation is given in the present case. The Master answered that because Mars was debilitated in this case (Cancer placement) and was conjunct Mercury who is not very happy in the Moon's house and is weak. The placement of Venus (Lord of Jupiter's placement) by the side the Sun in a watery sign helped the boy to be reared up by the 3rd wife of the father, who came into possession of hidden wealth. The disciple questions why the wealth could not have been got through an unknown woman (Ketu-Venus conjunction). In all the above combinations, only the Sun is powerful, placed in a friend's house conjunct Venus. As the planet in the house of Venus is Jupiter aspected by Saturn, a large part of the hidden wealth would have been spent in a bad way.

The boy was born when Jupiter occupied the house of Venus (Libra). The Moon was in *Anishtamsa* at birth (conjunct Rahu). So during the 5th year the boy will suffer from stomach trouble, colds and nervous debility.

After early disappointments in the educational career, he will pick up legal knowledge and learn much from his father. At 20-21, he will have bright days. After 23 he will earn well and get name and fame. He will marry between 23-25 years of age. Around his 37th and 45th year, the father will have troubles. His (native's) wife will be learned. Venus and Jupiter in *Shastashataka* (6-8) indicate separation from wife for a few years.

morals but of a very changeable mind. He will enter service at 22-23, but he will face difficulties till he is 26 years of age. At 27 the turning point in his life will come and he may be employed in a broadcasting station controlled by Government. There will be good fortune upto 36-37, but his mental troubles will not cease. At 37 he will change his place of employment

and then have peace of mind. From 45-46 he will have a better and higher position and will have several assistants working under him. At 35-36, there will be great trouble to one of his brothers and his mother. He will work even after 55 for some time. Between 48-50 he will own a house. He will live happily upto the age of 74-75. He will perform religious functions at home. He will have 3 children who will do well in their life.

CHART 134

In this chart the Sun is in exaltation in Aries, with Venus placed in the next house Taurus, and Jupiter in **exaltation** in Cancer. The native's father was a master of arts. Both of them will be highly devotional. But the native will suffer severely all through and will not be happy.

			Dt.

The disciple questions, 'Sir, with the Sun and Jupiter' exalted Venus and **Saturn** placed in their own houses, with Venus in the 5th and Jupiter in the 7th from Saturn, I do not understand why the native is not happy".

The **Master** answers—**True**, the Sun is exalted in Aries. But there is Rahu in **Pisces**—with **Mars** and Mercury fighting with each other and caught up by Rahu. The **Sun** will be shadowed by this unhappy combination in the adjoining house. Rahu's help makes Mercury **win** in the fight and Mars is defeated. This shows that the native lost her husband at an **early** age (7th to Venus is owned by Mars).

Next take the case of Venus who is to give happiness. He has his enemy

the Sun in the preceding house, and another staunch enemy Jupiter exalted in the 3rd house to Venus. As Venus is trapped between these planets he is unable to be of any help. As a result the husband was employed in Government (the Sun next to Mars). Mars is with Mercury, a brother. The native will get some money as a result of the death of the partner; but there will be legal problems as the Sun is between Venus and Mars. It is the brother of the husband that will be benefited much by his legacy.

When Jupiter comes to Leo in the second round the native will be married. When Jupiter transits Libra, the native will become a widow. Although, Jupiter is exalted he has the opposition aspect of the Moon in Capricorn. This indicates loss of power for Jupiter. Jupiter in his transit contacts Ketu first before joining the Moon in Capricorn. So, she will take up to propitiation of God and as a **result**, she will go to happy astral planets. As Mars is in conjunction with Mercury and Rahu, there will be an operation at 46. At 31-32, when Jupiter will be transiting Pisces she will be stung by a poisonous creature. She will also suffer headaches very often on account of excess heat in the system. After **46-47**, when all troubles **will be** over, she will stay with her brother (Jupiter's transit in Virgo). At 48, she will acquire some landed property; but it will go over **to a** brother. Between 48-50 she will visit some holy places. After 55-56, upto the age of 70 she will live a fairly peaceful life.

In the case of a male with the same placement of planets, the native will be employed in a machinery concern at first on a low salary and **later** he will rise to a good post, but **the** native will not be very lucky even in his high position.

### CHART .135

The native has a fine nose (exalted Jupiter). As there is Venus on one side and Ketu on the other side of Jupiter, the birth place was very near a holy and watery place. Between Jupiter and **Saturn** there is the wall of Rahu-Ketu. The native will have to struggle hard to attain some appropriate position. Though, he will have poor education, he will hold a high place. By 22, **he will** have a job and

education will be disturbed. At 30, he will reach a good position. By the time **Saturn** comes to the house he occupies at birth he receives the aspect of Jupiter from Cancer. The native will hold a place in financial concern and will deal in finances. After 30 years of age, he will go to foreign countries. Mercury conjunct Mars is inharmonious. The Sun is placed in enemy camp. But, Venus in Gemini and Jupiter in Cancer will give him a high position. Between 35-48 he will own a house, will have his bank balance increased. He will suffer from diabetes and piles. (Venus behind Jupiter). At 48 and 54, he will get promotion and also have opportunity to visit other places. His children will grow up to hold only ordinary posts. At 74-75 he will have *Raja Yoga*. At 30, he will be married to a noble lady. He will be stubborn type but very charitable by disposition.

CHART 136

**Saturn** is in Capricorn and Rahu in Aquarius ready to swallow up the former. Similarly, Ketu is in Leo with Jupiter in Cancer, and there is his enemy Venus in Gemini. Therefore, the good effects of Jupiter are reduced to 25%. Thus whatever good comes always ends in trouble for him. Mars is placed in enemy camp and has two enemies in the next house. Jupiter and Ketu will force him to take *Sanyas*.

As **Saturn** contacts first Rahu and then Mars who are inimical to him, the native will get a small employment at first. Later, he may come to own some lands. As Mars has Venus in the 2nd house, Jupiter in the 3rd and Ketu in the 4th, the native will have 2-3 wives. Finally, he will have to take to *Sanyas*. He will at least join a religious institution. Even from 48-50 he will start wandering about as a *VairagL*. His domestic life would never have been full of happiness.

CHART 137

Here **Saturn** is conjunct Rahu and there are no planets in either side of him. The Moon, Mercury and Jupiter are posited in the 6th to Saturn. There is a regular warfare between the trio and each has his own say in the matter. As Saturn enters Taurus, he contacts Mars enabling the native to get a job;

but that will involve him in expenses. Next when **Saturn** contacts Venus in Gemini, all the good that could come to the native is failed by the presence of the Sun, his enemy. The native will begin to earn and obtain help from friends; but **all** his earnings will be spent. **Next, Saturn** contacts Ketu in Leo, and this will deny marriage to the native. Jupiter though axalted is

conjunct with Mercury and the **Moon**—**both** inimical to each other. These dispositions will destroy all his good prospects. Saturn-Rahu and the Sun-Venus conjunction will deny him all happiness in life. However, he will get some relief from divine help. Finally, from 30th year onwards upto 70, he will have a favourable period.

### CHART 138

The native will be a devotional type. He will have reverence for elders and will be a learned man. He will have 4-5 children. As the Sun is aspected by **Saturn** from Capricorn and Venus is in Gemini (12th from the Sun), the father of the native will not live long. As there are Mercury, Jupiter and Ketu in the 2nd house to the Sun, the **father** will attain *Moksha* as a result of his learning and good deeds.

This native was cursed by elders in the previous birth. Therefore, he lost his father early in this life and will have to undergo difficulties thereafter. He will be employed in a cinema concern; but will be receiving only meagre salary. His mind will be verychangeable. Marriage is indicated at 25 or 28. Between 35-38, he will serve in some public institution. If the native recites *Gayatri Japa* 5000 to 10000 times in the presence of a **Guru**, he will be able to get rid of the curse and will have a good turn in his life and be happy. Between **48-50** he will enjoy a happy time. He will live upto the age of 75.

CHART 139

This native will be highly **devo-**tional and dedicated to his masters, charitable in nature **and one** who will feed *Brahmins*. Jupiter's placement in **Leo** alongwith Ketu leads to taking *Sanyas* under Royal favour as it is the **Sun's** house.

Dh.			
Sat.			Jupt. Dt. Mars
	Sun Mer.		Ven.

The disciple wonders and questions how the native can take to *Sanyas* when Venus is placed in the second house to Jupiter.

The Master **answers—Jupiter** is in a king's **house** and holds Chief Minister's post. The other occupant is Mars who is reddish in colour and there is Ketu with a tail So, the native will have the name of a faithful servant having a tail. With Venus placed in the 2nd to Jupiter we can infer his name to be **Sugriva**.

The native's father after undergoing trials and troubles through relatives and being devotional in nature, attained liberation by the grace of God. **Saturn** in his movements first contacts Venus in Virgo, his sign of debilitation, then has Sun's contact and finally touches Rahu in Aquaries. This shows that his father passed away, when the native was about **23-25**.

The disciple questions the Master, "What is the effect of the exchange of places of the Sun and Mars in this particular case?"

The Master **answers**, "The father had many friends. There were low caste people and who were after women when the Master was away. The father had plenty of **money.**"

The disciple agrees and further questions, "Master, as there is Jupiter in Leo Venus is in the 2nd to him in debilitation, what will happen when the Sun reaches Leo?"

The Master **answers—Even** if the Sun gets **Simhamsa** (stay in Leo) on account of Jupiter's contact with Ketu in the same house no good is likely to happen to the father So Jupiter only can give Liberation. Jupiter and Venus are enemies. So are the Sun and Venus and the Sun does not **enjoy** the company of a planet in debilitation. Thus, Mars is left all alone and being in

full vigour in Leo he goes forward and holds Venus in embrace being overcome by *Kama* .

Simply because Mars is in Leo and Venus is in Virgo, you cannot predict the same thing in all cases. This is a peculiar case. The representing father (the Sun) in Scorpio is on a duty at his machinery head quarters, his wife was alone (in Virgo). Mars enters and enjoys her. Mars has no faith in *Moksha* (Jupiter-Ketu combination) and Venus was alluring. Hence the situation ended like that.

The Master further gives **another** example. In that case the person concerned was born 3 years and 8 months before the birth of the above native. Mars, the Sun and Mercury were in **Pisces**, Venus in Aries, Ketu in Taurus, Jupiter in Gemini, Saturn in Cancer and Rahu in Scorpio. Mars was lord of Aries where Venus was placed all alone in the 2nd house to Pisces which Mars occupied. Mars was in conjunction with Mercury in debilitation. Hence, the native did not have a happy home life. Jupiter had exchange of places with Mercury, but Jupiter did not help the native. When Jupiter moved to Cancer he contacted **Saturn**. The next house *he*. Leo indicates Government. **The** next contact was to be with the Moon and Rahu in Scorpio.(house of Machinery). There is so much similarity; but Mars was weak too and so was the **Sun—both** fiery planets in a water) sign. Hence, there was no aggressiveness in that case.

Now, coming to the present **chart**, the native will have **two** issues as Jupiter is with Mars and Ketu with Venus in the 2nd to him. The son will join the father's machinery department and work there. But, he will gain education in a foreign place (exchange of the Sun and Mars). His daughter represented by Venus will be well versed in arts and very intelligent. She may have troubles at the **beginning**, but she will live happily in later life.

As age advances the native will become very devotional in temperament and attain liberation by his own efforts. He will live upto a good old age of 70 and spend the life in comfort.

### CHART 140

This native will be devoted to *Shakti*. He will always try to carry out to the end whatever he plans. He will be very liberal in his views and charitable. He will have happiness through his parents.

At the age of 23-24, he will have troubles in his educational career, **and** then he will take up some service and help his uncle and younger brothers.

The father will have opposition from enemies and **will** suffer from secret ailments. The native will have 6-7 brothers and sisters. The father was employed in a Government concern and earned name and fame. He, too, had brothers. On account of the opposition of the uncle the native's income will be meagre. He will be married to a dull minded rich woman when he is

35 years of age. But he will lose his job after marriage. He will be employed in the publicity section of a Chemical Industry and will begin to earn **well**. The profession will change by the age of 48-50 as he will face antagonism in every direction. From 43-47 he will have to face legal troubles and will have to spend much. Meanwhile, he will have one daughter and two sons. At 49-50, he will receive help from two persons and this will lead to acquiring financial gains upto **60-63** age. At **51, 54** or **55**, he will acquire a house and have other facilities in life. There will be considerable improvement in his professional career and he will have substantial financial gains and will earn fame. This fortunate period will run from 65 to 70-71 and he will spend a happy life.

CHART 141

This native will have medium education. Including him, they will be 5 brothers and sisters. The father will be employed as a teacher. All children will be well off in life. The father will have eye troubles. The native will work as a teacher at first in a Government concern and later in a machinery concern. He will lose his job later on. He will be married at 21 or 24 years of age. He will be married again at 32, and at 34 his 3rd wife will take **place**. **The** first wife died after illness. The second wife was a lawyer's daughter. The third wife will be a school teacher. The native **will** acquire knowledge of *Talismans* and **incantations**, and **earn** well. His wife **will** also bring money. He **will** earn by trading also. His **life** will be very ordinary until **50-51**. Thereafter, he will begin **to** earn in various ways.

In this case, Jupiter representing life force is in Leo, a kingly house with Ketu (**child Skandha**). **So, he will** have a name as *Raja* or one beginning with those letters.

The peculiarity in this chart is that Jupiter is conjunct Ketu and Mars (a dogged type) and there are no planets in four preceding and four succeeding houses. He **will**, therefore, be a wanderer from childhood till he attains the age of 30 and undergo many trials and tribulations. During his second round when **Saturn** enters Aquarius between 31-33, there will be exalted Venus in the 2nd house to his own (Aquarius) and the native **will** start his fortunate period and will also get married.

As the Sun **and** Jupiter have exchange of places, and Jupiter is in conjunction with Mars and Ketu in Leo, the material comforts will be increased after the birth of a son. The son will rise to become a very famous person and bring great wealth to the parents.

Here **Saturn** has Rahu in 2nd to him and Mars and Jupiter in seventh to Rahu in a royal house. So, the native will own land and gain much by cultivation of lands. The position of the Sun, Venus and Mercury in 3rd house to Saturn assures the native of immense riches by trade in vehicles. Though his boyhood **will** be ridden with troubles he **will** earn well between **49-50** and be happy till the age of 70. He will perform religious functions during his last days.

### CHART 143

In this case, Jupiter and Mars are **conjunct—The Master and the Commander—in-Chief** together are guarding the Treasure (Venus conjunct Ketu). Therefore, the native will have a job in which he will have full authority. The house of the mind Cancer is tenanted by the Sun and Mercury

and in the next house there are Venus and Ketu. **Saturn** is in Capricorn and the native has to see the treasury, Saturn to enter Rahu's mouth in Aquarius and travel round upto Leo. The first contact indicates a low paid job (Rahu) and then by dint of hard labour he will get the necessary knowledge (the Sun Mercury) and get a job in a Government concern. He, later, will come to the Treasury' under the direct supervision

of the Minister. The native gets employed at 20-21. He will rise slowly and at 28-30 he will attain a good position. As Venus is conjunct Ketu the native's wife will have piles. Next Jupiter-Mars conjunction indicates operation and freedom from piles. This happens some time after 36 when Jupiter completes his 3rd round and starts his 4th round, contacts Saturn and Rahu (This will be at about 40-43).

The combination of Venus and Ketu, and Jupiter and Mars indicates two daughters and two sons. Two of them will win great fame and will be known for their high intellect.

Even the native will have an abdominal operation on account of his wind troubles between 43-44 age.

Between **46-48**, he will own a house. Next, he will become the head of a private firm started by himself and will have very good time after **62-63**. He will perform religious ceremonies at the age of 51, 54 and 61. He will live upto 75.

CHART I44

In this case, Mercury is in Cancer and **Saturn** in Capricorn in opposition to him. Hence, the native will have a medium education. He will live by **the sale** of coconuts, vegetables and other juicy things. As Libra is tenanted by Venus, the Moon and **Mars**, the native cannot make a headway in the profession; but will face many oppositions. Saturn has no planets behind

### CHART 145

This is a case of an intelligent man who will have good experience of life, although his education will be of a medium level. He will be dogged by nature and will have a changing mind, almost vacant. His uncles and brothers will put him into shameful situations. He will earn money by hard labour; but it will be all taken away by his associates. This troublesome state will continue upto 26-27. Then he will suddenly come by some friends by Libra's help and will attain a good position.

He will pull through. His son will pass away at 32-33. This state of troubles will end when he comes to 44th year.

From 45 onwards, the management will expand and things will brighten up. Saturn, though placed in his own house, is in claws of Rahu crossing from Aquarius and there are no planets in the previous house (Sagittarius). **Saturn** has no planets in the 7th too. Therefore, things will remain uncertain.

Jupiter is in Virgo with Ketu in the previous house. The life line mounts to Jupiter mount and there is a fish sign in 3rd phalange of Jupiter finger. So all will end well. He will become more and more religious minded. He will have 5-6 children of which 3 or 4 will survive.

The partner in life will be a lover of mankind. She will like to help others in trouble. From the 48th year there will be a **bright** period for the native, as he will then start his own concern independently and one of his daughters will prove very lucky. Between 50 and 61-62 he will own a house and have financial stability. He will live upto 76 years. His wife also will be a lucky woman.

Profession Lord Saturn is in his own sign Capricorn along with Venus and Rahu, while behind him are the Sun, Mars and Mercury. This indicates the native to be a low paid servant in the service of a king or government.

As Mercury is situated in enemy's camp along with Mars his enemy, and there is Rahu in the next house, the native will be a coarse type

of person and his manner of conversation will not be likeable.

Jupiter at first contacts the Moon in debilitation and the native will, therefore, be duped and he will never get what he legally should. His wife will also get into trouble. With Saturn in the 2nd to the Sun it can be assumed that the native wanted to dupe the **Government**.

He will have 3 brothers and 2 sisters. Only one of them will be fortunate.

Venus with Saturn and Rahu indicates earning of money by immoral ways.

He will be married by about 27-28. As Venus contacts Ketu after leaving Capricorn, the native will have a daughter at **first** and two sons later.

As Jupiter contacts the Moon first, the native will have to migrate from his native place and settle elsewhere. As Saturn contacts Ketu first, the native will enter service as a low paid official at first. Next Saturn contacts Jupiter, in Virgo, a trading centre. When the Moon meets the Sun, Mercury and Mars and alongwith them contacts Saturn and Rahu, who is with Saturn, will pounce on them. As a result the native will get some conveyances. He will also own a house and earn in many ways. During 52-53 he will meet with an accident while travelling and he will **live** upto 63-68 years.

With Venus conjunct the Sun, and Mars in the next house, he will get a bad reputation and curses from women. As a result of this he will suffer a lot.

The Sun's contact with Saturn and Rahu too indicates that he will be employed in an operation unit. It will be taken over by Government and so

the native will quit the job at 32-33 age. At 44, 45 and 47 he will be facing troubles from enemies in his profession. He will fall ill at 47. He will own a **beautiful house**. In this case Jupiter is in Virgo exaltation point for Mercury and Mercury is in Aquarius with **Saturn** and **Venus**. This is the result of **Saturn** contacting the Sun and Mars in Pisces, aspected by Jupiter from the opposite sign. He will be employed in a government concern dealing with machinery. The combination of Mercury and Venus with **Saturn** indicates earning through sale of articles of luxury. He will also gain through a religious institution as Jupiter aspects the Sun and Mars in Pisces. Though he may earn well, Mars an enemy of Venus next to him will reduce the income: The Sun also is an enemy. Even **Saturn** and Mercury will have to face the opposition of Mars. As Jupiter is retrograde, on his entering Leo, he will aspect Saturn, Venus and the Moon. Jupiter already aspects **the** Sun and Mars. Consequently, two sisters and five brothers of the native will obtain rich positions in life.

Saturn's conjunction with the Moon indicates employment in a far off place and the conjunction of Mars and the Sun denotes good finances. The brothers also will make money in many places. They will be employees of Government. One brother will own houses.

The combination of the Moon, **Saturn** and Venus indicates health troubles to the wife. Venus has Rahu behind Mm in Capricorn. The wife will get relief by undergoing operation.

The conjunction of Mercury, Venus and Ketu in Cancer, will make the native a great intellectual. He will be able to make **friends** with any one.

Saturn is in Aquarius on **one** side of the Rahu-Ketu axis and Jupiter is on the other side. This shows that the native was employed in a place far away from his native place. He will have brothers and sisters, but he will have to depend on his own efforts for earning his livelihood. He begins to earn from 22-23. Between 26-28, he **will rise and** get a Government job. Before 26-28, he gets married. He will have children soon after. At his 33rd year, he will face trouble in his job and get a change. He will face trouble at the age of 40-45 during the Saturn's transit in Cancer and Leo. There will be no harmony in family life. Mars cannot have access to Venus as Mercury, his worst enemy, is conjunct Venus. Even the placement of Venus in Cancer does not promote family happiness. He **will** have no peace of mind till **45. Thereafter**, his **family** members will enjoy happiness and he will get some promotion. He will win **fame** upto 50 and also earn **well** and live happily. On account of heat in the system, he will suffer occasionally.

From his 46th to his 60th year, he will have a favourable period, but he will live a mediocre life. He will **serve** in a concern manufacturing sweet drinks (Venus and Ketu in Cancer) which he will start from his early age of 22.

The native of 158 has Saturn-Sun conjunction with Venus in the next house in exaltation. As a result his father had fortunate times from the second year onwards after the birth of the native. Often, there will be some troubles too. The native will enter business and amass money by dealing in costly articles. At 32-33, he will have a set-back and will have better prospects again at 34, Venus is on one side of Rahu; and Ketu and Mars are on the other side. Further, next to Mars there is Jupiter, a staunch enemy of Venus and so Mars has to wait and overcome several difficulties before reaching Venus. There will be some trouble when Saturn transits Virgo and is aspected by Venus in Pisces around his 18th year. Turning point comes at 39 and from **43-44**, he will steadily improve and have excellent prospects from 46-47, Gadgets and machinery trade will yield him good income and he will live a happy life upto 72.

## CHART 159

In this case the Lord of profession, Saturn, is conjunct Mercury and is posited in Aquarius, his own house. The **native** will acquire only that knowledge which will help him to earn his livelihood i.e., he gains only professional skill. With the Sun in the second to **Saturn**, he will be sure to get

Jupiter has Mars in the previous house aspected by the Sun in Pisces, and the Sun has Saturn-Mercury in the 12th house to him. Hence, including the native there will be five sons bom to his father, and as Jupiter is aspected by Venus and there is the Moon in the 3rd to Venus, the native will have two sisters too.

He will wander about till his 25th year. Then he will start his own concern. He will begin to deal in clothes, and also take up tailoring. After 28-29, he will begin to earn by several ways. He will get a bad name at 23, 26, 30 and 31 through his female acquaintances. He will get married at **26**. There will not be peace in his family life. Between 41-43, he **will** come across one woman whom he will marry (2nd marriage) **and** she will bring in a chain of troubles. He will have legal troubles, waste money in litigation, be duped by other friends and lose all his earnings.

He will abandon the 2nd wife and come back to his first wife. Thereafter, too, he will have troubles from enemies at **46-47** and stomach trouble between 47-49, for which he will have to undergo an operation. If he is able to overcome the trouble he will live upto the age of 69-70. He will have sons and daughters from his first wife. The sons will be more in number. Some persons will take money from him for arranging the sons' marriages. The last one to give him trouble **will** be a woman. ### CHART 162

The Sun, Venus and Mercury in Leo offered the native **only** medium education. *Bud ha* (Mercury) comes across Mars in his rounds and so there will be a break in education. The **na-tive** will always be very strict and definite in his opinions and very straight forward in all dealings. Mars and Jupiter **are** in the same house. Hence **he** is always upright. Venus is just midway between **the** Sun and **Moon** in Leo. Mars has to face his enemies **Saturn** and Rahu a few houses ahead. So until 43 he will not be settled in life. He will get married when Jupiter transits his exaltation point during his 4th **round**, *Le.*, between 44-45. Jupiter is in enemy camp and conjunct Mars **full** of valour and ego. He will not have full measure of happiness. There are no planets in the seventh to him, hence he will have to depend on himself. He will be employed in a Royal concern as the Moon is the 7th from Saturn, **Saturn** has Rahu-Ketu on either side, hence, the native is a servant. Ketu has Jupiter in fifth to him. Hence, he will visit holy places. He will live upto seventy years.

**CHART 163**

The native has Mercury, Ketu and the Sun in Gemini and will be very intelligent. When Mercury comes across Venus and the **Moon in Leo** and Mars in Virgo during the course of his rounds, the native will begin trading in sweet things. As **Saturn** is aspected by both Venus and the Moon his employment will be in a Royal Court. Unfortunately the Sun has no planets in the

			Sun Mer. Dt.

12th and 2nd to his place in Gemini. Hence, the native will not make any headway in his profession; but will plod on (**Satum** in 5th to Jupiter). The native **will**, however, gain considerably when **Satum** in his second round between **38-40** will come to his help when he contacts Venus who has Mars in the 2nd to him with the nodical **Saturns'** aspect from seventh. He will then acquire considerable influence in Royal circles. When **Saturn** comes to Capricorn and Aquarius, aspect from the Moon makes the native have a change of place and he **will** come home even while he carries on his trading business. Further, Jupiter at birth was retrograde and so he was bom in one place; but went away to eke out his livelihood to another place.

The Moon's placement with Venus gives a downward trend to Venus **Yoga**. **There** is also the argument that the Moon is not strong as **Saturn** aspects him and there is Mars in the 2nd house to him.

One disciple questions why the native did not deal in silks as **Saturn** contacts the Sun, Mercury and Ketu in Gemini as trading sign.

The Master answers that he may have trading in silks as a subsidiary occupation; but as **Saturn** aspected by Venus and the Moon directly his major trade is in drinks. Further, Mars in the second, Jupiter in the 3rd (retrograde) have given access to royal conveyances and court favour. He will win fame and money.

Another disciple doubts if Mars in 8th to **Saturn** does not dwindle away the income.

The Master answers that Mars placed in the Mercury sign is very weak, and with the Moon in 12th to sign at the age of 32-33 when **Saturn** transits Pisces the native will take to illegal ways through his servant, and when **Saturn** comes to Cancer and Virgo, the native **will** be drowned in debts. But he will come out of it unscathed. Jupiter placed in the house of Venus and being

retrograde aspects Mars in Virgo and so by the help of a friend he will overcome all troubles. **Saturn** brings trouble between 42-47 when transiting Virgo. The native after all these troubles will take to resignation to the Lord (Jupiter retrograde) and when Jupiter contacts Rahu in one of his rounds his life will come to an end. He will not become a *Sanyasi* as Jupiter is in the ninth (*Bhagya*) to **Saturn**, and has Venus lord of the house. Jupiter is placed at birth in eleventh to his place (Libra). Hence, there is no question of the **native—becoming** a pauper.

A disciple asks whether the **Moon-Venus** combination does not deny the native the happiness of married life. The answer he gets is that Jupiter's placement in the house of Venus plays a trick and probably he will have to face **infame** through a female, at the age of 33-34 and 37. But, Jupiter is placed in the second to Mars and Jupiter after overcoming Rahu will contact **Saturn** in Aquarius. Venus conjunct Moon in Royal Leo, offers the native every type of happiness in life. He will have to face trouble from both his wives as they will be of an obstinate nature and revengeful. Mars in 2nd to Venus, Jupiter in 3rd and **Saturn** in 7th indicate the birth of 3 sons. As Rahu is in Jupiter's sign Sagittarius, the native will enjoy life upto 62. When Jupiter in his 6th round contacts Rahu, terrestrial existence of the native will come to an end. His two sons will come up very well and live happily. One wife **will** pass away before the native's death and the other will outlive him as a widow.

Venus and Jupiter have Rahu in the next house. But, the Sun's position in the same house with Rahu will save the native from several calamities. The next two houses are occupied by Mercury, Mars and Saturn respectively and there are no planets thereafter to **help**. Mercury and Mars in adjoining houses have made Mars weak. As a result the native will have no brothers. Jupiter has Venus alongwith him; hence, the native will have sisters. Only one of them **will** be above want while others will suffer poverty. Jupiter alongwith Venus offers him only one son. The other children will pass away. Saturn-Mars conjunction on one side and Venus-Jupiter in the same house on the other side of Rahu-Ketu axis will involve the native in a great calamity at 49 when **Saturn** enters Scorpio/Sagittarius in his 5th round beginning.

Saturn aspects Leo and its Lord **the Sun** is in 11th place to **Saturn**. Hence, employment will be in a Government concern. As Mercury has **Saturn** and Mars next to him, he will gain also by commission agency and acting as

Conjunction of Saturn-Mars on one side and Venus-Jupiter on the other side will make the native very weak. He will suffer from anaemia and will have a lean and lanky body. He will, however, live upto 67 years.

This native has Ketu-Moon conjunction in Gemini.

Therefore, he will be employed in a tailoring concern. He has the Sun conjunct **Saturn** with **Mercury-Venus** in the 12th to them. As a consequence his father's relations and his own brothers will dupe him and take away his paternal properties. He will, therefore, have to live as a subordinate to others. Jupiter and Mars have exchange of places and are trine to each other.

Hence, the father will be of a devotional type and always charitable in nature as a result of Saturn getting into contact with Mars in 2nd and then Ketu in the 5th to himself. He will also contact Ketu and the Moon in his rounds. Thus clothes and, dresses of beauty will be of the source of income for the **native**. He will have two daughters and two sons and will live happily. From 44 onwards upto the age of 70, he will live peacefully. The native's sister will be a fortunate girl. Even, the children will be lucky. The little legacy he will get will be helpful to him. Between 50-53, he will face some difficulties and will have change in his source of income.

Propitiation of some goddess will offer him relief from 44 onwards. Finances will improve, and he will acquire some lands and between 44-45 will acquire a house of his own. These good things will happen when **Saturn** transits his exaltation sign Libra. From 46-48 he will grow rich and have a decent bank balance. The partner will be a worshipper of gods. Two of his daughters will become very fortunate.

The last child will become very rich but suffer from wind troubles. By 64 all children will get settled and he will have peace of mind. The wife will manage all household affairs in a proper way. amenities. Mercury contacts Jupiter and Rahu and then at the opposite point Ketu. Jupiter is in Mars' house. All this goes to show the native to be an expert surgeon and highly qualified doctor. Venus and Mercury opposite to **Saturn** indicate a wife and another companion closely connected with the native. The wife will no doubt be very beautiful and of a amiable nature, but

the native will have another companion even then. He will have 2-3 daughters and a son.

In this case Jupiter has Rahu in the second house to him. **Saturn** is in the 4th and the Moon in the 5th. The Master says, "This native, though not well educated, will be very intelligent"

The disciple questions, "How could that be"?

The Master **answers**—**Mercury** is at the end of Leo and very soon he moves to his exaltation sign Virgo. Hence, the native will have great intellectual ability. Unfortunately, he has

Rahu-Mars combination in Scorpio. Therefore, his educational **career** will be interrupted.

The Sun (father) is in Cancer with Mercury in the second to him. The father, therefore, will be a mild person. With Venus behind the Sun and Mercury in the next **house**, the father will be a Government servant and also

do some money lending business. The disposition of Jupiter in Sagittarius opposed by Venus in Gemini **with** Rahu and Mars in the **12th**, shows that the father's father was involved in an illicit relation with a woman and had come to grief. The grand father came into possession of houses and lands as a result of the tangle. Very little out of it was left for the **native**. Most of it fell into the hands of others.

With Venus behind the Sun and Mercury in the 2nd to him the father himself was a timid man and handed over all management of the house-hold to a brother.

The native himself had 4-7 brothers and sisters. At least two of the sisters will survive.

When **Saturn** contacts Ketu in Taurus, the native will get an ordinary job at a distant place. As Mars and Rahu oppose Ketu the native will lose this job. Later **Saturn** contacts Venus in Mercury's house and the Sun in Cancer. Then **he** will start business in fruit juices and drinks and will soon get married. He will become clever in saving money after Saturn's Venus contact. He will have wind troubles and pile (Ketu in Scorpio). He will undergo an operation between 47-48. He will have 2-3 children.

If the native is a woman the results are as follows:

As Venus is having the aspect of Jupiter, she will have high educational qualifications. As there is **the-Sun** in the second **house** to Venus, she **will** inherit some money from her father.

The native will not live in the house he was born in. The reason is that retrograde Jupiter is aspected by Venus. Between 47-49, his wife will have a very dangerous **time**—**But** the aspect of Jupiter on Venus will help her to safely come out of the danger. Between 56-57, he will have a break in career and have trying times. **His** children will come up well Between **40-44**, he will earn and acquire plenty Of money. When **Saturn** transits Scorpio, he will have an accident while travelling with some machinery. This incident will do financial loss, not do **any physical** harm to him. He will live upto 73-75 years of age.

The native will have a quarrel with his wife between 37-38 and will get separated from her till 42-43 age. Then a

On account of this whatever job he will take up, will not

By 42 he will get vexed and revert to his first position and thereafter things will take a good turn and he will go on happily till his 60th year. He may not derive great happiness through his wife or children. He can be free from all troubles by propitiating Lord *Siva* by *Rudrabhishekæ*eremony. his job. From 25th year, he will take up **Mantra Yoga** and will gain considerably at 26. Between **27-32** he will improve his position to a great extent. He may be married between 27-30. With Rahu behind Mars and **Saturn** in the 4th and Ketu in the 6th from him he will not have much happiness in married life. He may not have any daughters. This can be warded off by propitiating **Kanyaka parameshwar**. From 33 to 39-40, he will be in unfavourable circumstances. From 41 up to 56, he will have quite favourable environment and his financial position will improve. He will live upto 59-60 by his own intellectual ability. For some time, he will earn from an engineering concern.

This native will be having tremendous faith in *Vedic* lore. He will be helpful to the public. He will be under parental care and will be more inclined towards his father. He will follow his father's profession. He will have six brothers and five sisters forming a happy group. Three of his brothers will gain eminence. At the end of his 24th year, the native will get into his father's profession; but he will

change it a few years later. Two of his sisters will become very rich and one will get splendid education. At one stage, he will be employed in Government Treasury (the Sun with Venus and Mercury, all in the second house to **Saturn**).

As the Sun and Venus are enemies, he will lose his job; but Mercury being Sun's friend, will get the native a good and decent job in a commercial concern. Unfortunately as the next house is occupied by Mars and Ketu in Taurus, the exaltation sign for the Moon, the native will have some difficulties.

As Venus is in the 12th to **Mars**, and Ketu is conjunct Mars and the Moon is placed in 8th to Mars the marriage of the native will be delayed and will take place near about 41-42.

When **Saturn** transits Virgo and Jupiter transits Libra, the native will have an excellent time and this will happen at about 32-33. At 38, he will go out on a foreign tour. Good period will begin again at 42. In between, he would have narrow escapes from accidents in travel. From 43rd to 53rd year, he will achieve great eminence and will have all comforts of life. The native will be a patient person, and will trust all alike. He will have brothers and sisters. As the Sun is conjunct Ketu, the father will be employed in Government. As there is Venus in the second to Ketu and the Moon in 3rd, the father will be employed in a position where he will work for the salvation of souls through the recitation of *Mantras* of the Sun. Having Mars in the second shows the

father to be owning some landed property.

With Mercury in the second to **Saturn**, trade is the source of livelihood for the native. It may be related to Government as the Sun is placed in the second to Mercury. Mercury has change of places with Mars. This will constitute a conjunction of Mercury and Venus in Gemini and so the father would be the head of an institution and will also conduct money lending **etc.**

The native will have breaks in his education on account of Mercury-Mars exchange of houses. **Saturn** and Jupiter have also exchanged places and so the native **will** be deeply devotional in nature. The native will have employment in Government. He will also have financial gains through **his** brothers. (Mercury-Mars exchanges). The native will suffer from some defects in breathing. The native will be married in his 27th-28th year and he

will get the employment in Government before marriage. The wife **will** be of excellent character and also a learned woman. She will suffer from colds from 28th year onwards. He will have elevation in his job. Before 40-41 he will have two children. In all, he will have two sons and two daughters. The native will move away from his birth place and settle down elsewhere. Later, in life, he will have conveyance and will also suffer from wind troubles. From 54th year onwards till 58th year, he will have a very good time. The children will come up very well. **The** native's father served as a village accountant, attended to the lands and performed the religious rites in the houses of the villagers as a priest. (See the combination of the Sun and Mercury and Ketu in Taurus and the position of Mars in Gemini.) The father will pass away between 28th and 32nd year of the native. The exchange of places between Venus and Mercury indicates *Purohita* The

disposition of Mars in the 2nd to Mercury gave breaks in education. **Satum** in Jupiter's house Pisces with the above combination of planets in Taurus and Gemini gave him a job in a mechanical engineering department of the Government. Venus and Mars have Cancer as the next **sign—the** sign of Moon. Venus and the Moon are inimical and Mars is debilitated in this house. Hence, there will be a break in the job and the native will live a very ordinary life. His children will come up very well.

## CHART 196

**In** this case, the combination of the Sun, Mercury and Mars shows the father possessing some landed property. Venus placed in the next house in the Moon's sign shows the father to be interested in Arts. Jupiter in Aquarius is retrograde and getting the *amsa* of previous sign. Sat	Moon	Dt	Sun Mars Mer.

*Vedic* literature and he will hold a high position in that sphere.

Jupiter, Master of life forces, is in Aquarius. The native will have an attractive body perfect in shape and his complexion will be fair. Saturn is placed in Pisces. There is exchange of places between Saturn and Jupiter. Therefore, the native will be interested in doing noble deeds (*satwic karma*) both **religious** and cultural. Saturn has the Moon in the next house and Ketu in 3rd to **him**. As a consequence the native will acquire knowledge of several subjects which have remained secret for many decades. The Moon's place in the second to **Saturn** also indicates wanderings in many places during his younger days. He will experience many difficulties as a result of the presence of Ketu in third house to **Saturn**. Thus all wandering will end in no gains.

The significator of education Mercury, though in his own place in Gemini, is associated with **Mars—his** bitter enemy. Therefore, the native will have impediments in his educational career. The saving grace is to the presence of Venus all alone in **the** second place to Mercury. This makes the native greatly interested in arts and music. **Saturn** next contacts Rahu in Scorpio which bestows the native a knowledge of magic and finally at **the** end of his first round he meets Jupiter in Aquarius. This gives glimpses of *Vedic* knowledge. Coming to Mercury, he first meets his friend Venus in the second house and then Rahu, who creates impediments, and then Jupiter his enemy before meeting **Saturn** his friend in Pisces. So, the native will be a learned man; but will lack profundity because Venus is in enemy camp, and there are no planets in three houses thereafter. So there will be few females in his family. He **will** however, have sisters. That is because the Sun, Mercury and Mars are in Gemini. One of the brothers (Mars having Venus in the next house in enemy camp) will dupe his sisters and will usurp their properties. The native will have to undergo humiliations (on account of the presence of Venus in Cancer) through feminine connections. The native may have two sisters, but the next planet is Rahu in Scorpio. Hence the sisters will be destined to be widows and will be bereft of domestic happiness.

As regards the native's married life, the presence of Venus in enemy camp in Moon's house (Mental qualities) indicates mental aberrations troubling the wife.

The disciple questions, "Master, with reference to sisters you stated that they would have lost their husbands because of the placement of Venus and Rahu. In the case of the native's wife may it not be predicted **similarly**?"

The Master answers:

We are dealing with a **male** chart. In this case, Mars representing male has Venus next to him and Rahu is placed in the sign of Mars himself. So, Rahu does not do any harm to the native. The native will have little happiness from his wife as Venus in **enemy** camp yields very little happiness to the native. The brothers will be getting all the benefits. The native will not have any attraction for *Stree Dhana* (money coming from the wife's side) and will discard it.

The disciple questions, "Is the native then a hermit or *Sanyasi*"?

The Master answers:

The peculiarity in the case of this native is an exchange of places between Saturn and Jupiter giving him the capacity for work based on moral principles enunciated in *Vedic* Texts. As both these planets meet Ketu, the planet which grants knowledge of salvation, the native will be highly religious minded. While he will be in bed with his wife he will be feeling only as enjoying the ecstatic bliss of contemplation of the Great Reality. As the Sun, Mars and Mercury are outside **Ketu's** movement, the native will always remain untouched by the winds of **Karmic** Law. When Jupiter contacts the sensitive point held by Ketu at birth, the native will marry a third wife. The native will have no happiness until Saturn goes beyond Gemini in his second round. This will be at about 37-38. When **Saturn** contacts Venus in Cancer after his 37th year, he will get into touch with Government and have a job involving **art**, music, dancing and drama and other kinds of public entertainments. Next, **Saturn** enters Leo, the sign of Royalty, indicating good help from Government. When Saturn will be about to leave Leo, he will win great favour from Government and also win fame between **41-43**, when **Saturn** enters Virgo the adjoining house which is owned by Venus (Finances) great financial gains are indicated.

Whenever Jupiter transits Cancer on account of the presence of his enemy Venus there, the native will experience great humiliation in life through women. But, the presence of planets in all the houses from Aquarius to Cancer gives the native an opportunity to delve into the secrets of many hidden texts and bringing them to light by publication of several books. This chain of planets will also cause health troubles. He will suffer from Phlegm, and wind. This will also take him round to many places and enable him to gain name and fame and live upto the age of 76.

When Venus comes to the sensitive point representing 'wife', the native will marry a second woman. As Venus contacts Jupiter and **Saturn**

before coming in conjunction with the Moon, he will have two issues through his second wife and the Moon's contact will end that chapter. Then comes Ketu's contact stationed in the house of Venus (Taurus). He will then marry his third wife. Ketu has three planets in the second house. Therefore, the third wife will have three children.

On account of his constant devotion and worship of God he will help several persons when **Saturn** starts his second round and reaches Leo. Thereafter, the native will live with abundant peace of mind for the rest of his life,

The placement of Rahu in Libra gives chances for long travels and learning many talents. From **40-41**, he will have great improvement in status and he will earn name and fame. The Sun, Mercury and Venus are all in Scorpio a meditative and introvert sign. Mars strikes an arrow at **Saturn**;

but very soon he is swallowed up by Rahu (in the next house to Mars) who represents the *Kalapurusa* (The reckoner.)

All these dispositions have made the native a very devotional person, very helpful to his father (the Sun), a man of great learning, a good musician

(the Sun Conjunct Mercury and Venus), but the father will have no happiness in family life.

If the Moon be placed between Taurus and Virgo the father of the native may have two **marriages--but**, if the Moon is placed in Virgo, it is certain that the father will have two marriages. The first wife will have left one son and one daughter and died. The second wife had a low cast companion (secret love affair) and the lover die at the time of marriage by taking poison (Mars contact Rahu).

The disciple wanted to know the reasons for the above argument. The explanation given was that in this case, Mercury Lord of Virgo left it and escaped Rahu, went to Scorpio where he stayed in the company of the Sun and **Venus**. On account of the Mars-Moon conjunction, the first wife gave birth to a son and a daughter and died when Mercury contacted Rahu. As there is exchange of places between Jupiter and **Saturn**, there will be Jupiter's aspect on Mars and the Moon. The first marriage came off between 30-33 leaving two issues.

The second marriage is signified by the second house to Mars viz, Libra. Venus Lord of that sign is in Scorpio and Rahu a *Chandala* (a low caste man) occupies Libra. The conjunction of Venus with the Sun and Mercury indicates second wife living in her father's house (the Sun) with her brother (Mercury). Libra is the entrance to Scorpio. It is occupied by Rahu. Mars in Virgo is guarding the home. As he is aspected by Saturn Mars' had some trouble entering into Libra, and finding his companion getting married (Venus with Mercury who though effeminate became virile by being stationed in Mars' house and being in contact with the Sun), took poison Saturn's aspect to the Moon (Water) and Mars and died out of disappointment.

The disciple wanted to know why the time of death is fixed as the time of marriage..

The Master explains:

'*Jiva Karaka*' Jupiter is in Aquarius, *Saturn Kama karaka* is in Pisces. Next to him is Ketu in Aries, all in a line. Mars aspects Saturn. So, the native will have some defect in ankles.

As Saturn contacts Ketu first the native will have been wandering here and there at first as a **Sanyasi**. His education has been broken as Mercury is in Mars' house and has exchange of places with him. **But**, Mercury and Venus contact Jupiter first in their rounds. Hence, though the educational career will

be broken the native will be very well versed in arts. All the same he will wander about till 43-44 when **Saturn** transits Virgo in his second round.

With Jupiter in the **12th to Saturn** and Ketu in the 2nd to him the native will be religious minded and learned in *Sastras* (religious texts) to some **extent**. For some time, he would **have** worked in a commercial concern maintaining accounts (Mars in Mercury's house). So, when **Satum** transits Virgo (having exchange of place with Jupiter Satum gives the native a high post)-the native will get employed in a **good** position. But, the combination of Mars-Moon will foil the scheme. At **44-45**, when **Satum** enters Virgo things will get settled and the native will get fixed up in a cinema concern in a good post with the help of friends. He will thereafter live happily till 60th year.

It could not be unalloyed peace. His two children by first wife were not accepted by the second wife and so he had troubles. Therefore, the children migrated to their grand father's house (mother's father). The children, will however, become happy after their 18th years.

Both the children will have some trouble or other as there is **Saturn** in the 5th to Venus.

Venus has Rahu in the 12th and Mars in **11th**. Hence, the second wife hits hard her husband on the head on two occasions. Thus the native has no happiness through her.

He will have a total of five issues and will live upto 60 years. The period from 45th to 60th will be the brightest part of his 'life'. When Saturn transits Virgo and Libra, he will have his best times and earn much. But, the earning will all be shared by the relations of the second wife to a great extent and only a meagre part will be left to the native.

This native's father will be an employee in an ordinary concern as an accountant (the Sun in Mars' house). As the 7th Lord from the Sun, Venus owns also the house 12th to the Sun (Libra) and is posited in Libra alongwith Rahu and Mars, the father had two wives. **Even** in the case of the **native**, there will be no harmony between **him** and his wife. There will be

some defect in her. **Saturn-Jupiter** exchange, with Ketu in the 2nd to **Saturn**, indicates employment in an institution of learned men (*Pandits*). As there are no planets in 12th to Jupiter and as he has **Saturn** in the 2nd and Ketu in the 3rd, the native will have one brother and one sister. His step mother (father's second wife) will have 6-7 issues (Jupiter, the Moon and Ketu aspect Venus and Mars and Rahu in Libra).

The native will have a good time after 32nd year from where **Saturn** enters Aries in his second round. From 44 onwards, he will have fortune a little above average. He will have both sons and daughters bom to him and will live upto 73 years of age.

This is a chart of a man of ordinary educational qualification, but one who will be highly intellectual because of the conjunction of Venus and Mercury and exchange of Venus and Mars in Scorpio and Libra.

Sat.	Dt

Mars-Rahu combination always leads a man to duplicity. Exchange of Mars and Venus will give the native an extremely attractive personality and people will throng to him even at the cost of losing their money, houses and above all their good name. **The Sun** in Sagittarius with Venus on one side and Jupiter on the other, both of ministerial level, will safeguard the native and he will escape all legal **troubles**, if they- arise. **Saturn**, who provides means of **livelihood**, is in Pisces, the house of Jupiter. Next to **Saturn** is Ketu, one who wanders without any desires (*Sanyasi*). So, the native will disclaim all things at first, but later when **Saturn contacts** Rahu in Libra, he will entice people with art, money and himself live lavishly. His brothers and sisters will also be very intelligent (Mars and Venus exchange) and will live happily. Even the **father** of the native will enjoy life fully and then will take to renunciation. See how the Sun transits in Libra, his debilitation point, goes through the mouth of Rahu, then contacts Venus and Mercury and enjoys life and thereafter lives in Sagittarius all alone with no planet in the second and Jupiter in 3rd to his residence will therefore occupy a high place in life in the later part of life. When **Saturn** contacts Ketu, the father will withdraw from all worldly pleasures and comforts.

The native himself will come to be the head of an institution in his 48th year. **But**, he will be busy with many things between 45-46 and 47th years. The native will **never** hesitate to do anything even if it is unbecoming for a human being. He may live upto 67 and if he gets a further lease of life he will shuttle off his mortal coil at 78. During the last part of his life, he will become the head of a religious institution.

### CHART 205

Sat	Dt		
Jupt			
Sun Mer.	Ven.	Dh. Mars	

As the Sun is placed in the Jupiter's house with Mercury and Jupiter in the 3rd to him, the **native's** father will be deeply interested in the **welfare** of all. The native will have brothers and sisters; but the number will be small.

The native will be well teamed in religious doctrines. He will be employed in a machinery concern and hold a high post (Mars-Rahu conjunction in the sign of Venus and Venus in the next house having exchange of houses with Mars).

He will be married between 26-28 age. Between 31-33, his wife will have a very critical time. Thereafter, he will have 3-5 issues. One son and one **daughter out** of these children will come to limelight. His good days will start from 41st year onwards. At 44, he will have a house of his own. These good times will continue upto his 74th year.

He will win fame and will get some **landed** property earned by his father. As the Sun has Venus in the 12th and no planet in the second, the profit arising out of paternal property will be very meagre.

### CHART 206

As Jupiter and **Saturn** have exchanged places, the native will live an independent life. Ketu next to **Saturn** placed in Aries and no planet upto Libra which is occupied by Rahu (Mouth), Mars in Scorpio and Venus in Sagittarius (**taste** sweet) denote drinks for daily use prepared from juices by a machinery preparing sweet drinks for daily use. As Mercury is in the **11th** to **Saturn** trading profits are indicated.

Venus representing wife is in the **11th** to **Jupiter** in Aquarius. It is in **the**

10th to **Saturn** in Pisces and in the second to Mars in Scorpio. **Therefore**, the native will come to own vast properties and riches through his wife.

The native will live an ordinary life till 27-28 and come to light from 30th onwards. From 41 onwards there is regular improvement. Just as the Moon increases in the 1st fortnight and reaches the full day **with** the exception of 53-54, his good days extend upto 65th year.

The Sun is conjunct Jupiter and has **Saturn** next to him in Pisces. So, tiv issues will suffer slightly but they will all come up well (**Jupiter-Saturn** exchange). He will live upto the good old age of 78. **Saturn** in Taurus in the second round will give ownership of some lands. When he transits Gemini, much profit will accrue from wife (aspect from Venus). When transiting Virgo he will give name and fame to the native and **he** will earn in plenty. So, the native will live a happy peaceful life in a luxurious manner. Saturn's placement in second to the Sun indicates some health troubles like wind and heat (fever etc.).

CHART 207

The Moon-Mercury conjunction in Sagittarius, gave impediments in the educational career of the native. Further, Jupiter and **Saturn** have exchange of places. This also supports the failure in educational career. Mars conjunct Rahu indicates loss of some brother. The native will be of a good character and morals on account of Jupiter being in the second to the Sun. Venus in the second to Mars **indicates**

the native having a sister. The presence of Venus in between Mars and Mercury and the Moon in the 2nd to Venus indicates the sister as not having a very happy and harmonious life. The brother of the native at first, starts a concern of his own on a small scale, when **Saturn** transits the Moon-Mercury in Sagittarius. But, Saturn's contact with the Sun brings an offer of a job in

Government. Later on, the Moon's conjunction with Mercury makes the brother a devotional person and learned in religious texts. Venus in the 12th to Mercury with the Moon in 2nd to Venus indicates that the female children of the brothers will not flourish in life. Mars is in the 11th to Mercury and Venus is in the 12th, Mars and Venus have exchange of places. Though good, the conjunction of the Moon with Mercury spoils the whole life of the native as Venus, the Lord of **finances**, is in the 2nd house to Rahu. This does not augur well for financial gains.

When **Saturn** transits Leo in his 2nd round, there will be some relief. The placement of artistic Moon-Mercury in the 2nd to Venus is a pleasant combination for a lover of arts and when Saturn transits Libra, the native will amass some money i.e., (at about the end of the 45th year. That, too, will come through his wife. A brother in trouble will come out unscathed at this time. The Moon's presence in 2nd to Venus denies the native female issues. The Sun, Jupiter, and **Saturn** will later bless him with four sons.

#### CHART 208

In this chart life giver Jupiter is conjunct Sun in Aquarius, the native will belong to a family of *Saivites* living in a capital of a State. The Sun representing father being conjunct with Jupiter and both aspecting Leo the Royal house of the Sun indicates that the father was to be benefitted by living near the capital. Even the native will be benefitted by this combination.

**Saturn** is conjunct Mercury in **Jupiter's** house. Pisces and Ketu is in Aries the next house aspected by the Moon in the 7th to Ketu. The native will, therefore, be learned in the *Mantra Vidya*, particularly **propitiating** female deities (*Devi Upasana*). Ketu in the house of Mars is an impediment for **Saturn**; but it is all overcome by the conjunction of Mercury with Saturn.

As Jupiter is conjunct the Sun, the native **will** be employed in a Government concern. With Mercury in the second to the Sun and Ketu in third, the native will become a *Vedic* scholar well versed in all branches of the subject. Until **Saturn** completes his transit of Sagittarius things do not appear to be harmonic (Mars in Sagittarius is an **enemy**, of Saturn), so after

24-25 there will be better times. When Saturn transits Capricorn his conjunction with Venus will bring about the marriage of the native. About **44-45** he will possess a house in a place away from his native place. He will have 2-3 **sources** of income after 44th year and his good times will continue. Before 60, he will have four issues. *Vedic* knowledge will help him all through. He will live upto a good old age of 74-75.

As Venus is waiting for movement into his exaltation Sign Pisces, the native will have female partners. But his good days will not begin till

his 30th year. About the end of 29th year, he will start an independent concern with the help of his sisters and a few reliable friends. After 30, he has *Raja Yoga* He will be well off upon the 37th year and will own conveyances. From 38 to 41-42 he will have depression in his business. Income will go **down**. **Ill** health will trouble the family. From 43rd year onwards things will improve and finances will also be better. He will have some subsidiary occupations which will pay him well and the good fortune upto the age of 60 will fetch him lakhs of rupees. During **44-45-46** he will acquire new machinery for the occupational premises and he will acquire house-hold property. Between 41-42, he may have contacts with another woman. Good times will go on till **60-65**. The new companion will fetch him good fortune just for two years.

CHART 210

This native will have only medium education. Ketu is just behind Sun and Jupiter is with Saturn in Pisces. So the native will shine in the Medical profession under Government supervision. Venus has Jupiter, his enemy in the second and the Sun also an enemy in third. Thus the native will have only mediocre happiness in life. He will have a legal wife **and** a mistress too. In

about his 45 years, he will own a house. His children will come up well. He will live long. His father was employed in a Government concern.

The native will have two brothers and four sisters. He will have reverence for elders and teamed persons. He will come to own riches. He will have one son and one daughter.

The Sun is conjunct Mercury in Taurus and there are no planets thereafter in four houses. So, the father will be a teacher and later on take to oil marketing. The native will be married

between 18-21 years of age. Mars representing the husband of the native is in exaltation and **Saturn** is in Aries and so they have exchanged places. Therefore, the native will get a partner who will become rich after marriage. The native **will** own a house between **40-45** years and happy functions will be celebrated at home. When the native is 39-40, the husband will come to own lands and have own house between 43-44. They will then have several sources of income. She will suffer from wind trouble between 47-49. Between **50-51**, some religious function will take place in the house. Good days extend upto 68-71 years of age. The native's daughter will become a doctor and the son a Mechanical Engineer.

CHART 212

The Mars line in the hand of this native has assumed the form of a serpent. Next on the Mount of Moon there is serpent line visible. So, we have to conclude that the native will have both Mars and Cancer being influenced by Rahu and Ketu.

In the chart, Jupiter is in Pisces, **Saturn** is with Ketu in Aries *Siva* with *data* (matted hair) and so we conclude that the native did much *Tapasya* and worshipped *Siva* and gained **this-birth**. Therefore, the native is deeply contemplative in his nature (Saturn-Ketu) and all his work in this world will be based upon **Dharma** of *Vedic* texts prescribing how a man should live observing rules and regulations for all

actions done by man. The native will also be persistent in his actions as Mars is in Capricorn. Mars and **Saturn** have exchanged their places. As Mars is exalted and is all alone, the native will **obtain** great fame in the country by his moral actions and will always be guided by *Vedic* injunctions. When Saturn returns to his natal place after the first round~(about 30) things will take a sudden bright turn in the life of the native. From **31** onwards he will become highly intuitive and begin to know before hand all the coming events. All this will be because Ketu influences Jupiter, **Saturn** and Mars. He will get donations from Government and the public and re-establish the old traditional religious institution in his place. His intuitive guidance to people will be extremely helpful to them and so his popularity will grow from **day** to day. From his 36th to **41st** year, he will reach the height of his glory. He will never become a prey to pride and shun all superiority and monetary gains. Venus a dear friend of **Saturn** is in the very next house to him and it happens to be the house of Venus (Taurus). Therefore, money, gold and silver will flow to him without his hankering after them. The native will be absolutely detached (Saturn-Ketu conjunction and exchange of places between Mars and **Saturn** and the result being influenced by Jupiter on one side and Ketu in the same house). There will not be a trace of selfishness in him. In his 45th year, the native's fame will reach the peak point when Royal favours will be bestowed on him. He will remain a bachelor till 40 years of age. He will become rich and get married between 41-42 years. He will convert his wife also into his own line of approach to life, build up several religious institutions and perform many holy religious ceremonies.

He will suffer from wind troubles (Jupiter and **Saturn** in adjoining houses) as well as from piles or stomach trouble and have an operation in his 48th year or before 50th year. He will live upto 76 years.

This native will be a **oorn** helper of humanity coming into this world

with the blessing of gods.

He will have five children. His brothers will be employed in a far off place (Mars in exaltation all alone without contact with the other **planets**).

### CHART 213

Here Jupiter is in **Pisces**, Saturn and Ketu together are in Aries, and the Sun and Venus in Gemini. This **shows** that the native will be a great *Pandit* who could occupy the top most rank (Two great *Acharyas* on either side and Ketu conjunct Saturn). The native will also deal in rich fabrics denoted by Venus and gain plenty of wealth. Mercury placed alone in Cancer is ready to encourage trading. But Mars

This disappointing condition will prevail until Jupiter passes over Libra. A good change will begin **when** Jupiter transits Leo by *Guru's* grace. Before, Jupiter leaves Libra, the **native** will have changed both his place and position and migrated to a new place. A brother will help him at this time.

When Jupiter transits Sagittarius the native will lose both his parents. He will stay with his mother's relations for some time and by the time Jupiter enters Capricorn, he will acquire a house which will involve him in legal troubles. Later, he will find a place in a religious institution and he will have to spend several years there. He will get married between 38 and 41 years or at 44. By propitiating the gods for a period of 21 days, the native may be able to solve all problems giving trouble to him and his family. Thereafter, he will have a happy life with success attending all his efforts.

### CHART 214

The native will be an intellectual and he will win fame. During the fifth and eighth year, he will face health troubles. Between 14-15, there will be marriage negotiations ending in failure. At 25, he will begin to wander about. When 27-29, he will face a failure in his amorous approach and he will get married at 31. He will get name **and** fame after marriage. The **Government**

will recognise his merit. But, he will have many enemies who will disturb his smooth life and peace of mind. By 34, he would have come to a point of exhaustion. **This** state will continue till 40th year. During 41st year, he will change his place, get Government encouragement and begin to make a headway. He will win name and fame. After 44-45, he will earn lakhs of rupees. This exalted state of success and harmony will run upto the 60th year. His whole life after 45 will be of growing prosperity. Venus and Mercury are placed in Cancer owned by Moon who controls mind. The native will therefore, be extraordinary intelligent. Saturn with Ketu has Venus-Mercury in the 4th with no planets in between. So, the native will deal in the sale of grains (water products).

The disciple wondered why in similar combination already discussed the native was said to be a doctor (dealing in chemicals and drugs) or a tutor in the educational department, while here it is said that the native is a trader in grains.

The Master answers:

The fact is that the Moon, lord of Cancer, is in Virgo. As there is exchange of place between Mercury and the Moon, Mercury comes by the power of exaltation in Virgo and so trading in grains or fish (which are reared in water) is to be predicted. Further, Saturn and Mars have exchange of places. The native will, therefore, also earn by the use of machines. Mercury's conjunction with Venus aspected by Mars indicates dealing in conveyances (cycle, auto or cars). As Jupiter is in his own house in the 12th to Saturn, the native will hold a key position in his trading concern. But, the

good period begins from 28 and extends upto 35. Between **36-40**, the profits will not be good. A sudden depression will occur. **About 41**, when Jupiter transits Cancer, good period **will** begin again. **Thereafter**, the native will have a period of good luck and **will** own a house and conveyances. Mars indicator of marriage has Venus posited in Cancer (a debilitation sign for Mars) and Venus is in conjunction with Mercury (an enemy of Mars) endow education and the Sun in the second to Venus in his own house, offers a low post where one has to make use of his intellect. Thus, the wife is likely to be employed in an educational institution in the lowest cadre.

Further, Mars representing husband is exalted in Capricorn and Venus in Cancer receives his aspect and causes troubles (being an enemy). But, **Saturn** in Aries has exchanged places with Mars in Capricorn. Therefore, Saturn's influence in Capricorn together with his aspect on Venus and Mercury (both friends) in Cancer denotes good income through marriage. The native will possess a house and earn money. Mars aspects Cancer and the Moon its Lord is in another watery sign. Mars is also influenced by Venus in 7th to Aries. Therefore, the husband of the native will have two wives.

Mars exalted all alone (indicator of husband) shows that the husband will be employed in an Engineering concern and profit through vehicles. By exchange, when Mars is in Aries, he is aspected by **Venus**, Mercury, the Sun and Rahu. This shows that the husband will start an institution dealing in vehicles where he will have the highest post, and also will have his own business. He will earn well. Mars has Jupiter in the next house and **Saturn** and the Moon in the 3rd. This indicates for the native to have three elder brothers and a sister (the Moon). Ketu's conjunction with **Saturn** shows one brother living away from the native in a far off place. May be he will be a **Sanyasi**. As **Saturn** has exchanged places with Mars who are inimical to each other, another brother will quarrel with the native and will go away from him. He may die an unnatural death. There will therefore, be only **one** elder brother who will stay with the native. He will be helpful to him and act according to his **wishes**. As Mars gets contact with Ketu (by exchange of place with **Saturn**, there is *Nagadosha* in this case causing separation of brothers).

Mars in his transit meets **Saturn** first of all. There is also Jupiter indicating meditation and **devotion** for **Brahmans**. Further on is Mercury the enemy. Still further on is the beautiful maiden Venus. Then finally he meets the worst enemy Rahu. All these indicate that the native's family life will be shattered. There will be no peace of mind for him. Venus is posited in the house adjacent to that occupied by Rahu. This indicates that his wife will be obstinate and cunning. The native will wed two women. Next, in the house of Leo, we **find the** Sun and finally in **Virgo are Venus**, Mercury and Rahu. Therefore, the native will not find happiness in life with her husband.

The lord of the seventh house from **Jupiter** is in the 12th from Jupiter.

The lord of the sixth house from Jupiter is in the fifth house with the lord of that house. This clearly indicates that there **is** no doubt regarding unhappiness in matrimony.

The significator of father, the Sun is **ruling** in his own house having Mercury, Venus and Rahu in the second house to him. Rahu indicates menial service. Mercury indicates writing work and Venus indicates secret service. As Mercury is exalted the writing talent would be of a high order. The combination of Mercury and Venus indicates auspicious affairs. As Mercury and Venus are in the fifth house from Jupiter educational institutions are indicated. So, the native's father will have a profession related to all the indications mentioned above.

Analysing in a different manner, it can be stated that Venus indicates beauty, Mercury indicates writing and things pertaining to intelligence and Rahu indicates dark colour. Therefore, the native's father will do some business or work related to these things. Mercury is also a significator of brothers. So, the native's father will have a brother (younger.)

The Sun has **debilitated** Venus in the next house to him and also **Mercury** and Rahu. The succeeding houses from Mercury are vacant till we reach Pisces which is occupied by **Ketu**. This indicates that the two brothers will not have many children. **But**, Venus confers a sister to the native's father.

Disciple: The significator of brothers Mars is ruling his own house having Jupiter and **Saturn** in the second house. Although, Mercury the significator of **education**, is in **conjunction** with Venus, there **is** an exchange of places between Venus and Mars. There is also the Sun in conjunction with Mercury. This indicates three sisters for the native. The situation of Saturn in the seventh house indicates the loss of a brother.

The native, for the **sake** of his livelihood and residence, will leave **the** place of his birth and live elsewhere. Finally, he will be happy. In the second house from Jupiter, there are Rahu and **Moon**. This indicates that the native **and** his mother, after her **widowhood**, would move over to another **place**. Jupiter is retrograde. This indicates change of place. As **Saturn** is retrograde, there will also be changes in the native's trade.

Disciple: First of **all**, we come across exalted Jupiter in Cancer. Then **come** the Moon and Rahu. Therefore, it is indicated that the native should be a great preceptor who guides other people to be in the right path.

**Preceptor:** 'The significator of profession **Saturn**, is retrograde in Taurus and has influence on Aries the house of Mars. Further, Mars and Venus have exchanged houses and Mars is in opposition to Aries and aspects **Saturn**. Jupiter is in retrograde in Cancer, a watery sign. Jupiter is moving towards Gemini, the house of Mercury. This indicates a seed falling in a watery place and sprouting into a plant. Therefore, the native's trade should be related to these facts. Although, Saturn is aspected by the **Sun**, Mercury and **Venus**, it has to be taken into account that the Sun and Venus mutually weaken each other. This indicates that the native may get government aid but not government service.

**Disciple:** Master, what will be the fortunes of a woman with this kind of planetary combination in her **horoscope?**'

**Preceptor:** The lady of such a horoscope would have a short-lived father. She will have a little education. **She** will have brothers. Mars is this lady's **significator** of husband and Mars has Mercury and Venus in his second house.

**Saturn** is posited in the house of **Venus**. This indicates that the native's husband will do business in warm liquid materials, due to the exchange of houses **between** Venus and Mars, the native's husband will have two wives. The native will enjoy pleasures and comforts. But, pleasure and happiness from her husband will be very little.

Now going back to the original male horoscope, let us see how his marriage comes off.

In the seventh house, there is the enemy of the Sun. This indicates that marriage for the native is very difficult. He will be married during his 40th year. At this same period, he will earn much money and have vehicles. As Jupiter is in a watery sign (Cancer) with Rahu in his next house the native will be afflicted by diseases pertaining to cold and wind humours.

When Saturn enters **Cancer**, the native will change the place of his business.

Between his **40th** and 48th year, the native will enjoy prosperity. He will acquire a new house.

Mars is in **Libra**, the house of the Preceptor of **Asuras**. So, a brother will be in the teaching profession. As Mercury is in conjunction with the Sun and Venus, another brother **will** be running a business house dealing in chemicals.

She will be disgusted with her family life because her husband will have relations with another woman and break amiable relations with his wife. This is due to the fact that in the native's horoscope, the significator of husband Mars is aspected by retrograde **Saturn** and Mars **has** Venus in the next house and the Moon in the 12th to him. The disposition of Rahu with the Moon in the next house and Mars in the 3rd causes a blemish in this woman's fortune. This indicates that the native will get more pleasure and consolation from friends than from her husband.

As Venus and Mercury are posited in the seventh house from Saturn, the native will be arrogant due to her wealth. The position of Mars, an arrogant planet in Libra, the house of wealth indicates that she will desert her husband

This indicates that the native will profit by business where intelligence will be an essential requirement.

Jupiter in the second house from Saturn and Mars in the seventh **house'** indicate that the native will be independent in his business.

Jupiter in the seventh house from Mercury indicates good education. Mercury in his **transit** first of all comes across Ketu and then **Saturn**. So, although the native will be educated it will not be much.

The Sun is in conjunction with Mercury and Venus and this indicates that the native's father will have beautiful hand writing. The native will adopt his father's profession.

This indicates renunciation. **Saturn**, the enemy, is in the seventh house from Mars. Therefore, there will be no marriage for the native.

Disciple: The lord of the seventh house from Mars is **Venus**, and Venus is in conjunction with Mercury. So, when these two are together, the native should obtain at least one wife. In addition to this, Jupiter aspects both Venus and Mercury. At least, this should enable the native to get a wife. Is it not so?

Preceptor: In this horoscope, Mercury and Venus are in the second house from Mars, which means that the lord of the seventh house Venus is in conjunction with Mercury the lord of the 8th and 11th house from Mars. This indicates that a woman (indicated by Mercury) will formally marry him, but will desert the native and live with a former sweetheart of hers. This is indicated by the exchange of houses between Jupiter and Mercury.

There is the Sun in the second house from Mars. This indicates that the wife who deserted the native will arrange matters in such a way that the native will not get any trouble from the Government. Jupiter is in Cancer in the second house from **Saturn**. Cancer is a watery sign and Jupiter is a sustainer of life. There is also Rahu with Jupiter and Rahu indicates the mouth. This indicates that the native will earn wealth through trade in foodstuffs.

The Sun and Venus indicate that the native's place be in a capital city or some city of importance. The disposition of exalted Mercury indicates that the native will earn **money** through agency business. There will be a steady progress from the native's 37th year.

When **Saturn** enters Cancer during his second round of transit the native's misfortune will commence. Actually, misfortune will commence as early as when **Saturn** transits Taurus. Therefore, good fortune will begin again only when **Saturn** leaves Leo. That will be slow progress between his 30th and 37th year. He will be involved in litigations. This will happen when **Saturn** transits Cancer. When **Saturn** transits Leo things will make worse.

Saturn is in Gemini and Venus is in Leo. This indicates that the father will be employed in an educational institution run by the government.

Venus is in conjunction with Jupiter. There is an exchange of houses between Venus and the Sun. Venus yields his power over two houses thereby. This indicates that the native will have two or three sisters. One of these sisters will be employed in a government dispensary. Another sister after losing her husband will get another husband holding a better position. After this, the sisters will also earn money through business or through their talents.

The sustainer of life, Jupiter, is with Venus; and Mercury and the Sun are in the 2nd and 3rd respectively. This indicates that excluding the sisters already referred to there will be in all four or five brothers and sisters.

From his 15th year to his 23rd year, the native will experience hardship. He will be married between 22nd and 24th years of his age.

**Saturn** has Rahu in the next house. First of all, he will begin as an

Later, the native will start a business due to the influence of Mercury who is posited in his own house.

In the Moon's house which falls second from the Saturn's position is Rahu the friend and in the second house from Rahu is Venus. This indicates that the native will have good fortune through a woman or his wife. Between his 35th and 36th year, when **Saturn** will be in Leo, the native will obtain a higher position in his service and more income. His fortune will grow day by day. He will possess houses. Between his 27th and 28th year, the native will face **some** accusation against him and will also undergo some slight punishment. Mars is in the sign of Venus and in the second house from him is **Saturn** and Rahu is in the third house. Instead of helping the native Rahu will inflict punishment. Between his 42nd and 43rd year, the **native** will again face charges brought against him. He will lose lot of money. He will also lose his parents during this time.

Mercury is in the forest (Sagittarius) in this horoscope. Because of the transposed positions of Venus and Mars, it becomes equivalent to Mars being in the 12h house from Mercury. When Mercury moves forward into Saturn's house, he meets Ketu and much farther Mars and **Saturn** in Taurus. This indicates that the native will have a break in education when Jupiter reaches Aries in his second round of transit, which will be around the native's age of 21. Then the burden of continuing the business of the family will fall on the native's shoulders. But, this will create a situation as bad as serving **somebody** else. The native's brothers will enjoy the fruits of his labour.

He will have two **sons** and two daughters. A son will visit a foreign country for higher education and earn good reputation. A daughter will get an ordinary education but will be prosperous.

The native will be **afflicted** by maladies pertaining to heat and wind humours.

Another kind of profession is also predicted for this kind of horoscope. The house where **Saturn** is located indicates luxury. Mars is also there destroying the luxurious things. Ahead is a blockade in the form of Rahu. Jupiter and **the Sun** have exchanged houses. This indicates sustenance through things brought from the forest. Further ahead are Venus and Mercury. This indicates making ornamental articles out of the materials brought from the forest and putting them up for sale.

In this horoscope, there are no planets either in the 2nd or the 12th to Venus. Therefore, there will be domestic discord.

Mars is with Ketu aspected by Saturn and Rahu. This indicates disgust in life, lack of peace and fortune.

Jupiter, located in Virgo has vacant houses on either side. On the other side, nearing opposition and exaltation is Venus the enemy. This indicates humiliation and scandals. The native will live a life of misery.

Rahu and Saturn have Mars, Ketu and the Sun in the 7th house. This indicates that the native will be employed in Government service.

Saturn meets Jupiter in Virgo. This indicates very little fortune.

In his 36th year, he will be a little more prosperous. This modest prosperity will continue till his 58th year.

Had Mercury been stationed in Sagittarius and Jupiter in Virgo, the fortune of the native would have been different. That would indicate a business enterprise or government service.

## CHART 277

As Mercury is in conjunction with his enemies, Mars and **Ketu**, the native of this horoscope had very little education. **Saturn** is in Mercury's house in Rahu's company. So the native, in the initial stages, will be an ordinary employee.

In the seventh house from Saturn although there is Mars, there is also Mercury stationed there. Consequently a business, dealing in hot things is indicated. As Jupiter comes first in the

path of **Saturn** it is indicated that the said hot things are **essential** things for the people. **Therefore**, the native will make a living through such a business.

The native will have brothers and sisters. As Jupiter aspects the second house from Venus, the native will have children.

Virgo is not a good place for Jupiter to wield his power. There are no planets in the adjacent two houses. There are no planets even in the seventh house. Therefore, having no one to care for him, Jupiter turns back from Virgo in retrogression towards Leo. But, Venus, seated in Aquarius is out to do mischief to his enemy, by his aspect on Leo. Thus Jupiter finds himself in a predicament. But, in Sagittarius, Jupiter has his friend Mars, Ketu and **Mercury**. Three houses Virgo, Libra and Scorpio have to be passed for Jupiter to find help. That comes to  $3 \times 12 = 36$  years. So, the native will pass through a dangerous period during his 36th year of age. After he survives this, he will enjoy good fortune.

Disciple: As Jupiter and Mercury have exchanged houses, it is **tentative** to Jupiter being stationed in Sagittarius and Mercury in Virgo. Will there be no beneficial effects emanating from Mars, Ketu and the Sun in the adjacent house?

Preceptor: It is because of the exchange of houses between Jupiter and Mercury that the native has the prospect of marrying and getting children. Had the exchange of houses not been there, the native would have died quite early.

Rahu and Ketu have obstructed all good fortune, Saturn has no planet in the 2nd or 12th to him. Further, the strong position of his enemy in the 7th house indicates only difficulties and troubles.

If Jupiter can demolish the walls of Rahu and Ketu it will be equivalent to entering a new world. There is a dangerous period when Jupiter in his 3rd round of transit reaches Sagittarius and Gemini or Cancer. There is definitely danger to the life of the native when Jupiter enters Cancer. If the native survives this danger, there will be good fortune in his life. The exchange of houses between Jupiter and Mercury is not an indication of much good fortune. The fact that Jupiter has no planets in the adjacent houses or in the 7th house and the fact that Mars and Saturn are in opposition confers a moderately good fortune.

I shall describe three horoscopes in support of my contention.

The Sun is stationed in Aquarius in the company of Mars, Venus and Jupiter. Rahu is also there. This is like time devouring all living forms from a pot. **Saturn** is in Virgo and Mercury is in Capricorn. Here is another exchange of houses by the land lords. This position is akin to entering the mouth of Rahu the serpent. Therefore, the native of this horoscope cannot have a long life.

Now let us **consider** a second horoscope. The sustainer of life, Jupiter, is debilitated and his enemy Venus is in Cancer, the house of exaltation for Jupiter. The Sun is in Leo with Rahu. Mercury and Mars are stationed in Virgo. In this horoscope, debilitated Jupiter faces Cancer, his house of exaltation and finds his enemy there. This is not conducive to long life.

In the third horoscope Jupiter is debilitated in Capricorn. There is no planet in the adjacent houses. Mars is debilitated in Cancer, Saturn is in Leo with his father the Sun. Venus is in Virgo in the company of **Mercury** and Ketu. Strong Rahu during his transit in anticlockwise motion meets weak Jupiter and gobbles him up. Therefore the native of such a horoscope will die during his 11th year. If he outlives this age, he will certainly die during his 25th year.

In the event of his living upto his 25th year, he will become a father of two children before he dies. This is due to a *Neechabhanga Rajayoga* found in this horoscope.

**cluded** that when Jupiter has no planet either in the adjacent houses or in the

If Saturn is similarly **disposed**, the native of such a horoscope will experience poverty and difficulties in life. These matters should never be revealed and the revealer will suffer extreme difficulties.

**CHART 278**

The native of this horoscope is of mediocre education. Mercury is in the second house from Mars. Saturn and Mercury have exchanged houses. Saturn is with the Moon and Rahu. The interchange of Saturn and Mercury causes

such effect as if Mercury is in conjunction with the Moon and Rahu. These represent intellect, illusion and darkness. This conjunction indicates a trade in which intellect and shadow play their parts. **Saturn** and the Moon represent black and white while Rahu is **for** attraction. This indicates joy in darkness. Ahead in the 4th house **is** Jupiter which indicates that people will be attracted towards this thing. All

these summed up, indicate that the native will be a photographer.

When **Saturn** affects the house, where the Sun and Mercury **are**, by his interchange of houses with Mercury he is confronted by the Sun and light. In the second house from **Mercury** is Venus and so the native will profit by articles of luxury, gold and such other things.

Due to the exaltation of Venus, **the** native will have four sisters and a brother. The fact that he has only one brother is due to the fact that Mars has Mercury in **his** second house and the Sun is helpless although, he is also in the same house as Mercury. **The** Sun has an exalted enemy in his second house. The native's father will be short lived. The Moon, **the** significator for mother is in conjunction **with** Saturn and **Rahu**. **Therefore**, the mother leads the family. The mother will **profit through golden** ornaments.

The native will enjoy a period of good fortune between his 34th and 48th year. He will earn money through three **or** four sources.

**Between 49 and 53, the native will incur great** loss and will have to face many troubles.

. Once again from his 54th year, **the** native will prosper well and live

The happiness of Venus was shattered. Saturn in his turn completely put to rout Mars and as an effect of this, the native will lose her husband. But, due to the benign aspect of Moon the native will marry again. Due to the fact that Venus has Mercury in the second house, the native will get another husband. Mercury is about to enter his exalted sign. With Saturn and Rahu in the fourth, and Mars in the eighth to Mercury, the native will have a disrupted education. Saturn-Rahu conjunction indicates service as a low paid servant at the start. Later on he will gain fresh knowledge and will get employed in an Engineering concern (Saturn contacts Mars). From 31-32 onwards, he will have financial gains. He will live upto 70 years.

## CHART 390

This is a female's horoscope. Mars representing husband has exchanged places with Saturn in Scorpio. The husband will, look down upon her. With Venus placed in Cancer in enemy camp, she will have little comfort in the married life. The Sun is strong in Leo in conjunction with Jupiter. The father

will, therefore, be well placed in a Government job. With **Venus** in the 12th to the Sun, Mercury in the second and Saturn and Rahu in the 4th, the father will have sex relations with a low born woman, leaving his wife.

As Mars retrograde in Aquarius aspects the second house from Venus and the 12th from Saturn-Rahu combination in Scorpio, the lady will be frustrated in her efforts to have a second marriage. About 24, with the help of a friend she will get a job in a good concern. She will have two issues. About 35-36, she will improve her knowledge and will live upto 68 years with the help of her children who will come up very well by about her 36th year.

With Venus in the 12th and Mercury in the 2nd, Jupiter all alone in Leo the native will not be happy. He will have no peace of mind.

If the native is a female, Mars retrograde aspects Venus by moving to Capricorn. Venus is in enemy camp. Therefore there will be no marital happiness. She will be second wife (Mars contacts the Moon first, next

Ketu and later on Venus). With Jupiter in the second to Venus aspected by Mars, she will come into possession of a house, and get financial aid through her husband. When Jupiter transits Gemini she will become a mother (Jupiter represents life, Venus represents the seed, **Gemini 11** th or house of fulfilment, hence birth of child). She will have two sons and one daughter. The husband will earn by providing food and drinks to the public.

If the native be a male he will have happiness through two women. He will earn through machinery. He will receive honours from Government. By 38, he would have a house and all kinds of conveyances. From 45 onwards, he will get help from his children. He will move abroad and live upto the age of 70.

## CHART 392

This is a female's chart. She happens to be a **second** wife. Fear interferes with her marital happiness. Mars-representing husband has to cross the Moon and Ketu before coming in contact with Venus. Hence she will be the second wife. The native will be devotional in nature.

Mars contacts the Moon first (sweet) and Venus in the Moon's house after crossing Ketu (sour). So the husband **will** deal in articles which are sweet and sour and will earn his livelihood through them. She will have children, conveyances and all comforts and live upto a good old age of 63.

In this case, Mars is all alone with no planet on either side. He is aspected by Jupiter hemmed in between enemies Venus and Mercury on either side. As a result, the marriage of the native will be delayed. His health also **will** not be good. The younger brother will get married first (Venus in the 11th to Mercury). The brother will be an agriculturist. (**Saturn** and Rahu in the house of Mars and change of places between Saturn and Mars). The native will get an influential position in Government. (**Saturn** in Mars' house and Mars aspected by Jupiter in Leo). The lord of Leo the Sun is conjunct Mercury (intellect). Consequently the native may be a legal adviser to the Government.

## CHART 394

Mercury although in Virgo contacts Rahu in the third, the Moon in fourth and Mars in sixth. Therefore, he has become weak, **Saturn** has exchanged places with **Mars**. Therefore, when Mars comes to Scorpio, he contacts Rahu. Rahu (mouth) and Mars (teeth) arouse *Rudramsa* (the angry

god of **destruction**). The conjunct of the Sun and Mercury resulted in the death of both a brother and father and the native for reasons given above.

Similarly, Venus representing sister, has Mars in the seventh and by exchange of places when Mars goes to Scorpio Rahu gobbles him up. Thus, the sister's husband passed away suddenly. The widowed sister got some landed property after his death.

**Saturn** in Mars' house with the Moon in second to him shows that the native will own lands and cultivate them.

When **Saturn** goes to Aquarius he will have an exchange aspect from Venus and Jupiter, with Mercury in second to them. As a result **the native** will also deal in yellow and reddish **things**; which are attractive **and** other things used for decoration.

As **Saturn** has just emerged from exaltation and contacted Rahu, both dependent and independent ways of living are possible for **the native**. When **Saturn transits** Leo, the native will have losses of both **money and** material. There will be disharmony in family. Transit in Virgo will be **no better**. Only when he enters Libra, the native will get married, get a regular job. He will have a rise upto 30 years, own a house between 34-40, and have an extraordinary bright time between 45-48.

He will be placed happily with four **issues—two** of each sex and live upto a good age of 68.

**CHART 395**

In this chart, as **Saturn** has exchanged places with Mars in Aquarius, by the law of exchanges when Mars comes to Scorpio, Mars-Rahu combination will face Mercury and the Sun in Libra and Venus and Jupiter in the **12th** clearly indicating that **all** landed property earned by parents will melt away as a result of his falling in com-

pany of undesirable persons. Education will be out of question with Rahu in the second to Mercury. The father had a brother and as Mercury and Venus are **friends**, that brother will be well off with influential associations helping him to have a decent job. As the Sun and Venus are enemies and both are in debilitation the father's property was lost.

### CHART 396

Excepting an old dilapidated house there is nothing more of the ancestral properties. (Rahu conjunction Saturn). The native's father did some contract **work** and agency business and made some money but lived in poverty. The native will have brothers and sisters. The native (female) will not be married till 23-24. Thereafter, marriage will take place. The husband will be well read **and** well placed in life. From 28th year onwards the native will have favourable period. At 30, something specially good will happen. The native will have three sons and two daughters and will live happily till 60-65. They will all be happy.

As the Sun signifying the native's father is in Jupiter's place Sagittarius with Mercury and Venus, the father **will** be employed in Government in a concern having highly intellectual persons (Educational Institution).

There are no planets in Capricorn and Aquarius. Then there is Mars having the aspect of Jupiter in Virgo.

So, the father will own a house and will have some landed property (Mars). Jupiter's aspect made the **parent** rich and highly judicious in temperament.

Mars having Ketu in the third to him, indicates that the native will have a brother who will be highly devotional and philanthropic in nature going to foreign countries and earning well. He will hold a high post.

The native will not be married till 28. When Jupiter leaves Taurus and enters Gemini, he gets the aspect of Venus and so marriage may **take** place between 28-30. This will happen when the native will be away from native place. Mercury and Jupiter having exchanged places, Jupiter by the law of exchange gets the contact of Venus. As a result the native will live happily upto 58 years.

**CHART 398**

The parent (the Sun) is one who will be a trader (Mercury) and will have money (Venus).

Jupiter, the life controller, has no planets in 12th to him and there is Rahu in the second from him in Libra (enemy camp). Being alone, Rahu is very powerful. Next Jupiter's contact is with **Saturn** in enemy camp of Mars who is aspecting him from **Taurus**. As Jupiter's position is thus weak and unhappy, it is possible the native's end will come between 15-18 years of age. If the God's grace he improves his health and reaches his 23rd year, there is some hope of light dawning in his life.

The native will rarely admire any one. But he will be so earnest that if he is pleased and becomes a friend he would give his life for the friend.

**Saturn** receives the Moon's aspect from his exalted position in Taurus. The **naive** will be attracted towards ails and sweet drinks concern at 15-16. He will also come in contact with persons who are thieves. He will escape from their influence by the guidance of *Vedic* scholars (the Sun and Mercury in Leo and **Jupiter**; Mars in Virgo) coming from a noble family say about

Mercury is all alone in Leo. Next to him there are Mars, the Sun and Jupiter. Therefore the native will have brothers and sisters. They will all grow rich.

When Jupiter transits Gemini in his second round he gets the help of Mercury and the Sun by their exchange of places. As a result he will start his life in a Government concern in a decent job through the help of an uncle. When Jupiter transits Virgo at 24-25, there will be great misunderstanding and quarrels with his brother: Law of exchange brings Mercury in contact with his enemy Mars. Venus conjunct Rahu shows troubles from sister's relations. All paternal property **will** be lost as a result of quarrels. The native will struggle upto 31. He will get married between 26-28. He will **have** five issues. He will have to eke out his livelihood through a machinery concern. He will live upto 66 years of age.

### CHART 401

Mercury, significator of intellect is in Mars' house conjunct Ketu. The native will be **learned** and patient. He **will** specialise in machinery (house of Mars).

The native's father (the Sun) is in Taurus the house of finance, and Jupiter is posited in Mercury's sign of exaltation Virgo. Consequently the father will be a *Vedic* scholar and a trader too (See Jupiter in mercantile sign Virgo aspected by exalted Venus).

The Sun representing father is exalted. He must have been employed in Central Government service. The lord of the second house to the Sun is Venus and he is placed in Gemini conjunct Mars. the Moon and Venus in third to him and no planets thereafter except Rahu in Virgo. This shows that the father had five sons and daughters. As regards the two sisters represented by the Moon and Venus, Venus has the **Moon's own** house next to him, the Moon has just entered **Gemini**—an enemy camp. Mars is an enemy to Venus. As Venus-Moon and Venus-**Mars** are inimical amongst themselves,

the life of the two sisters will be very unhappy. As Mars and Mercury have exchanged places, Mercury conjunct Venus by the law of exchange brings in some help to Venus placed in Mercury's house (a friend). Mercury as younger brother of the father of native (Sun) will help the sisters now and then.

Mercury representing the younger brother of the native's father, gains some secret knowledge and gets employment in government.

Between the age of 19-20 of the native the aunts will have a hard time.

The mother of the native is represented by the Moon. The native's mother when she was carrying for the fourth time and was having female baby in her uterus had recourse to a forced abortion, which resulted in the deterioration of her health thereafter. This happened between the age of 21-25 of the native', before **Saturn** got the aspect of Rahu from seventh. Poor man, he lost his mother at a very early age.

The disciple wanted to know how the age of the native is fixed for the several events happening in life.

The Master **Answered**—**To** estimate the age is a tough job. Any way reckoning from the transits of Jupiter, we find Jupiter transits the sign occupied by the Moon at birth (viz., Gemini) about the 19th year of the native or about 20.

Saturn's transit over Rahu takes place about the age of 25 of the native. That is the maximum period upto which the mother can live. The native's mother was of excellent character and will migrate to *Punya lokas*, happy celestial abode, after her demise.

**Now** about the **father**—**The** Sun in transit contacts first the Moon and

then Mars and Venus. He will come into possession of an old house with a well of potable water, or a good tank nearby. This he will obtain from the brother's relations.

The disciple wants to know as to how this judgement was arrived at.

The Master **answers**—**When** we say *intellect* it is a combination of brain and power. It is stone and earth together that constitute a house. Similarly, when there is combination of Mercury and **Mars**, having Venus in second or the seventh to them, or when Venus is conjunct Mars it is generally found that the native will come to own a house or will have landed property. But, in the present case, Mars goes to his house of debilitation and has Rahu in fourth with no planets in between. Hence, the prediction '**old** house, with a well in **it**'. As Rahu always moves backwards, the house is about to tumble down. Venus conjunct Mars with Cancer vacant shows water facilities. This is how the prediction is made. As the Sun gets contact of Mars by the law of exchanges with Mercury, the relationship of the house to a brother is clear.

Further, the house is in a slum area. Look at Saturn's aspect from Sagittarius (a dry area full of bad smell). Hence the native's mother did not like to stay in it. There are no planets on either side of Gemini, where the Moon, Mars and Venus are situated. Fear of living alone **was** the other reason, **for** rejecting the house.

The Moon is conjunct **Mars**—**The** brother of the native has amassed some hard **metalware**. All this will be taken away by robbers when Rahu transits Gemini, where the Moon is posited. After this event, the father will come to stay in this old house. When Venus moves to Cancer the father will contact an immoral woman.

The disciple wants to know why the brothers represented by *Mars* cannot have the *Yoga* of combination **with** *Venus and the Moon*.

The Master **answers**—

A younger brother who had good education (Mars conjunct Venus and Mercury by exchange) went round for disseminating knowledge and got into a love affair with a disciple.

The person represented by Mars though married will have extra marital relations with **2, 3** women (Mars conjunct two feminine planets the Moon and

Venus).

This science of Astrology is not simple. It is a *Vedanga* (Part of *Veda* —~~the~~ great ancient literature explaining the reality). As times passed, people became indifferent. Unless God **wills** one cannot be efficient in this science. It is only with the blessing of the Lord ~~that~~ correct predictions can be made.

From out of the three, the father and his two brothers, one will become an expert in Astrology and **the'** old books on that science will be with One staying with the father of the native. The father will have no belief in *Vedic* knowledge. Though, the Sun is exalted he does not have Jupiter's aspect. The father will have three children of whom two will live long.

As regards the native of this chart, Jupiter is in Scorpio with Saturn in the next house. **Saturn** contacts the lonely Ketu in Pisces first in his round: Ketu is a writer. Next **Saturn** contacts the exalted Sun. He will start a steady life from 24. At 25, there will be some elevation. From 42 onwards, he will enjoy life in full with conveyances etc. But the association of Mars and the Moon with Venus and Jupiter and **Saturn** being on the other side of the Rahu-Ketu barrier, the native will have to face many trials, troubles and antagonistic days in his marital life. It will be smooth. He will face great humiliation through a woman. The native will be full of bad qualities~once in a way he may do right or good deeds. He will get employment in Government. Family troubles will arise at 25, 45, 48. If only the native will have faith in God and moves along an adjustable path, never confronting others he will live the rest of life peacefully. Mars-Moon combination in the seventh to Saturn gives him the changeable and immoral temperament. One brother of his mistress will take away all his property. He will wake up at the end. He will be married at 26-28. His brother will live a princely life.

### CHART 407

The Lord signifier of intellect, Mercury is in the house of the Moon (Lord of mind). So the native will ~~be~~ of bright intellect. But, with Mars in the next house his educational career will be disrupted.

The Sun and **Saturn** aspect each other, so the father will be short lived.

Mars with the Moon and Venus indicates his having greater number of sisters. He will also have three brothers as there are Mercury and the Sun in

the two preceding houses. With Rahu in the second to **Mars**, one of the brothers will have one organ rather deformed as Rahu is a planet of darkness.

The Sun has no planets in the 12th to him. **Satum** who aspects him has no planets on either side of him. Consequently the **father** will struggle throughout. As there is Mercury the mercantile planet in Cancer, the father **will** be a milk vendor. Later, as the Sun contacts the Moon, Venus with Mars and Rahu the parent may get employment in a cinema concern, as a film projector operator.

The native himself cannot **earn** much as **Satum** has the Sun (enemy) in seventh to him. **Satum** has no planets on either side. He may be benefitted by dealing in vehicles (cycles etc.). He will get a partner who will have the qualities of a thief.

#### CHART 408

This native will be ambitious, **but** timid. He will, **however**, be **trustworthy**. He will have breaks in **education**. He will have two brothers. As Venus is in debilitation and conjunct Rahu, he will have no sisters. The Sun representing father is conjunct **Mars**, and has Jupiter, Mercury in second to him. Thus the parent will have changed **2, 3** professions. He will shine in an educational institution.

In this case, the Sun, Mercury and Ketu are in *Pisces*, owned and aspected by Jupiter in *Virgo*. This yields the result of exchange of places between Mercury and Jupiter. This combination indicates that the native was a friend of his father in the previous birth. Jupiter's conjunction with Rahu and aspecting Mercury will make the native well versed in legal matters and logic (*Tarka Shastra*).

The Sun aspecting Jupiter endows the native with a golden hue. The direct aspect of the Sun who gives one the knowledge of the self and that of Mercury on Jupiter endows the native with clarity of thought. The native will be one who will always follow the order of Truth and Justice. He will be a man of excellent character.

The placement of Venus in *Taurus* and Mars in *Scorpio* aspecting each other will endow the native with great pliability and deep understanding of the views of others.

Jupiter in his transits first comes in contact with the Moon in *Scorpio* conjunct Mars. This is most unfavourable for the mother of the native. The native will have illicit relationship with a *Chittini* woman and she will give birth to a boy. The presence of Venus in seventh to the Moon will bring ill-fame to the mother of the child and she will end her life out of disgust. The result will be that the native will get into the clutches of law and will be accused of murder (Jupiter in *Virgo* opposed by Mercury conjunct Ketu in *Pisces*). All this legal trouble will arise when Jupiter transits *Pisces*.

After the loss of the first marriage Jupiter next contacts Venus strongly placed in his own sign *Taurus*. This results in 2nd marriage. Soon after the native will undertake several pilgrimages (Jupiter aspected by Ketu conjunct the Sun and Mercury).

Venus, a good friend of Saturn in the 2nd to the latter and Venus

aspected by Mars conjunct the Moon in Scorpio, clearly indicates the native will own landed property (Mars aspecting Venus) with a number of cattle and be engaged in agricultural activity.

The native will attend to father's death ceremonies in his 13 in the system as the Sun opposes Jupiter conjunct Rahu. His 30th and 43rd years are good when Jupiter transits Cancer and becomes exalted. His longevity may be about 66 years (Jupiter's contact with Ketu in 6th round:  $12 \times 5 + 6 = 66$ ).

#### CHART 410 (Examples)

**Saturn**, Venus and the Moon in the house of Mars (Aries) indicate three sisters for the native. Jupiter's aspect on Mars indicates that the native will have a brother also.

During the entry into Pisces in the second round of Jupiter at the age of **16**, the native will not have happiness. (No planets in Capricorn, Aquarius and Pisces. Jupiter. Further, the three houses behind Jupiter are also vacant. This denotes that the native will have no brothers or sisters born after him. During the second round, when Jupiter comes to Gemini occupied by the Moon and Rahu i.e. about the age of  $12 + 7 = 19$  the native will have a great calamitous time. If he overcomes the same, he will live upto 45 or 50 years of age. The native will have good times in a village to the east of his birth place. **Saturn** has Venus in the second house, with the Moon and Rahu in the third (nice eatables), hot foods indicated by Mars in the second to the Moon denote that the native will make money by preparing and selling eatables which are hot and nice, and popular drinks.

The above is one view. With the same combination other results are indicated in one or two cases. One is that as Jupiter aspects Venus in the second to Saturn, the native will be employed as a teacher in an educational institution while Mars, the Moon and Rahu give him facilities for food during his educational career. If he survives 45-50 years he will live upto 60.

The native has **Saturn**, the Moon and Venus in Aries. This indicates that he will own landed property and will be agriculturist. With Jupiter in the seventh to these planets, the native is **one** who will have straight dealings with all and one who will associate himself with cultured and men of good moral character.

The Moon-Venus combination will impel him to have sex relations with many women. When Jupiter enters Gemini where Rahu and Mercury are tenants or when Jupiter enters Aries in his fourth round, the native will have come to a point of great satiation of life and so the end may come. With all this, the native will have no peace or harmony in family life and there will be delay in having children. This will not deter him from having great regard for the elderly and well versed persons and devotion to God.

The Master comments--

In this case with Jupiter in Taurus and Venus in Sagittarius there is exchange of places between the two planets. The place of birth is, therefore, a beautiful town (Jupiter in Taurus). Further, **Satum** in Aries and Mars in Capricorn cause exchange of places between them. This shows that the

town is one where people from various places migrate and also frequently visit for mercantile purposes. the native will eke out his livelihood by agriculture as he will own expansive lands (Mars in exaltation). In this case, as the Sun is in Aquarius with no aspect from any planet the father having been cursed, will lose his brothers and sons in this life.

The disciple wants to know how **this** happened and how it can be judged from the combination of planets in the chart.

The Master answers-

The previous birth is indicated by the 12th sign to the position of the Sun in this birth. Because of the Sun in Capricorn you get a knowledge of the previous birth.

The lord of Capricorn is in debilitation in Aries and conjunct Ketu and Jupiter in the second to Ketu.

One night, when **Satum** entered Capricorn, an old man with saintly character, (Jupiter is in the 2nd to **Satum** conjunct Ketu plus **Satum** and Mars exchanging places), came to him and when Saints and **Sadhus** came for alms, he abused them and sent them away. They in their turn showered curses on him.

As for the loss of brothers the explanation is that Mars having exchange of places with **Satum** will get the conjunction of Ketu. So the indicator of brothers became powerless under Ketu's influence.

The Sun is **influenced** by **Satum** as he is in the sign owned by the latter. Venus denoting wife has exchange of places with Jupiter in Taurus and Jupiter has just come out of the clutches of Ketu placed in Aries. Jupiter denotes children. Mars denotes brothers. Therefore the father of the native **suffered**

from the curse of the *Sadhus* in the previous birth and experienced loss of brothers and sons in this life.

The native will be a good soul with faith and devotion to God and fully engaged in agriculture (Ketu between the Moon and Jupiter-Mars and **Saturn** exchange of Places). When, Jupiter transits Venus at about 20th year, the native will become very rich (by exchange Venus comes to second house of Saturn's placement). He will be married at this age and live upto 70 or 80 years.

#### CHART 419

**Nandikeswara** informs *Markendeya* that the native of this chart will have *Vishnu* line as well as **Manimalika** in his palm. He will develop an avenue of big trees offering shade and shelter to travellers. Here Mercury and the Sun are in Gemini, Venus and the Moon in Cancer and Mars in Leo. Later, he will also **Cultivate** lands belonging to a religious institution. The gains will not be adequate. He will have brothers and sisters. Venus in Cancer meets Mars in Leo in his rounds and so his sisters will get married first.

As regards one of his sisters Venus is placed in an enemy camp i.e. Cancer owned by the Moon conjunct with him. The very next house is tenanted by Mars as enemy of Venus. Later, Venus contacts Rahu in Scorpio. This sister will, therefore, get a child after marriage (Venus conjunction Mars) and become a widow later on (Venus conjunction Rahu).

One of his brothers (Mars) **will** get married and die early (Mars conjunct Rahu in transit).

When Jupiter completes six rounds and while proceeding in the seventh round enters **Libra i.e.**, at about the age of 67, the native will shuffle of hi;

As the Sun denoting father is conjunct Venus **strong** in **his** own place

**Saturn**, the significator of profession, is in Taurus (with the **second** house Gemini vacant and its Lord exalted in Virgo) and he contacts Jupiter first in Leo and then Mercury. So, the native will be employed in a mercantile institution dealing in hard substances.

As Venus is conjunct the Sun (an enemy) and the next house Scorpio is tenanted by Rahu, the native's wife will suffer **considerably** from ailments and will be practically denied progeny. He will live upto an age of 52, i.e., till about Jupiter contacts Rahu after completing four rounds.

In this case, Jupiter is exalted in Cancer and has Venus in the 12th to it in Gemini. She, who was his wife in the previous birth, becomes his wife in this life too.

Unfortunately, Venus is conjunct Mars and the second house to Venus is occupied by Jupiter and Mercury. The native is, therefore, sure to be married twice in life. When

Venus in his rounds contacts Rahu at the age of about 39th or 40th year, his first wife will pass away (Jupiter completes three rounds and contacts Rahu after four years ( $12 \times 3 = 36$  and  $36 + 4 = 40$ )). **This** causes death of first wife. When next Jupiter enters Sagittarius his own house and gets the aspect of Venus in Gemini (7th to Sagittarius) he will **marry** again.

He will deal in various things and also earn money in several ways. If he outlives 43, he will shuffle off his moral coil at 52.

### CHART 423

The placement of Jupiter and Ketu in the intellectual sign Gemini bestows on the native great learning and also employment in an educational field. He will be a tricky person (Ketu conjunct Jupiter). The Sun in Taurus with Mercury and **Saturn** indicates the father of the native to have come from a noble and rich family. The native will have a brother (Mars strong in his own house Aries). As with the placement of the Moon in Pisces, Jupiter and the Moon have exchanged places, the native will undertake foreign travels at the age of  $12 + 9 = 21$  or ( $12 \times 2 + 9$ ) at 33 years of age. He will migrate from his native place and settle down in the new environment.

The native has **Saturn** in Taurus and Venus conjunct Mars in Aquarius which gives exchange of places to **Saturn** and Venus. The native will, therefore, have two marriages. Both the wives will be of very good character.

When Jupiter enters Leo, he will get the aspect of Venus. Hence, in his

22nd and 25th years he will face some troubles. When Jupiter contacts Rahu at 28th year, he will suffer from wind troubles.

As Rahu is in Taurus, the house of finance and Mars is in **Libra** with Ketu in the second to him, the native will be brave and will have financial backing. As Jupiter contacts at the very outset the Moon, Mars, and Ketu, the native will dupe many people and amass wealth.

The Sun is conjunct **Satum**, with Rahu in 12th and Cancer, a watery sign in the second and Venus an enemy in the third. Thus the Sun is hemmed in between enemies and so the native's father will be helpless (the Sun) and as **Satum** contacts Mercury first (one who is of mixed character) and Jupiter and, Venus later fighting with each other (being inimical). **Satum** gets the upper hand and profits by interfering in the quarrels of others. The native will be responsible for maintaining institutions for the feedings of the poor and wandering *Sadhus*. He will also maintain religious and educational institutions.

**Saturn** and Ketu indicate darkness and shade. The Moon is placed in Libra (sign of Venus). This indicates pure light. As Venus, Jupiter and Ketu indicate knowledge of *Vedas* and *Shastras*, the native will arrange for the publication of books, pertaining to *Vedic* knowledge. He will earn plenty of money through this and at the same time gain fame also.

His wife will be highly devotional and beautiful (**Venus-Jupiter** combination). After Venus crosses Leo and Virgo, where there are no planets, he contacts the Moon, his enemy, and thereafter moves over the vacant houses (Scorpio and Sagittarius) and contacts Rahu and Mars. Therefore first wife of the native had enough cross currents for begetting any children. When Jupiter transited Libra, because of the Moon who is there having exchanged places with Venus, a second marriage was arranged and when Venus contacts Mars, Rahu in Capricorn, Venus being preceptor to Rahu, Mars was freed from the shackles of Rahu and gave a **son** to the second wife. Mars in exaltation aspected by Jupiter in exaltation made the boy very famous.

When Jupiter crosses Capricorn, the native will have great danger to face in life. By the Grace of God, if he will overcome the danger the same troubles will arise again at 67 ( $12 \times 5 + 7$ ) when Jupiter in his sixth round crosses Capricorn. The native will then shuffle off his coil having suffered skin diseases, and paid for all sins of the previous birth.

CHART 442

This native will get married in his 22nd/23rd year and **wealth** and

landed property may be owned by him in a moderate way.

As Jupiter is conjunct Mercury with Venus in 12th conjunct Rahu in Capricorn, the native will have two marriages. The little landed property he **will** own will be obtained **after** some troubles and quarrels. This acquisition of land happens between 36-40. When Jupiter transits Pisces, Aries,

Taurus and Gemini and contacts Mars he gives the land. The situation of **Saturn** and Ketu in second to Mars caused all the troubles. He will live upto a good old **age** of 70.

### CHART 443

Here, the Sun is in Taurus, is **conjunct** Venus and Jupiter and Mercury, is in 12th (Aries). There are no planets in Gemini and Saturn is in Cancer all alone. Venus strong in his own place and Mercury in 12th to it, indicates that the father of the native may have had a mistress besides his legal wife.

The Sun conjunct Venus indicates his wife coming from the same place where the native was born.

The native will take up agriculture, chanting of *Mantras* and also trading as means of livelihood. **Saturn** contacts Ketu (*Mantra*), Mars (agriculture) and later Mercury (Trade).

When Jupiter after crossing Mars contacts Rahu, the native will suffer ill-health through boils, accidents while travelling and extra heat in the system. Propitiation of Rahu and Mars will help him to overcome the obstacles.

When Jupiter, in his third round, crosses Leo and this time coincides with the transit of Mars on the same point, the native will have a very bad time and may face fire accidents etc. If he will outlive this trying period he will live upto 54 and lead a happy joyous life.

CHART 444

When the native will be about 17 years of age, Jupiter transits Rahu in Leo in second round and the Sun transits at the same time either Leo or Libra at the latest, the father of the native will face great danger.

As Jupiter has to cross **Saturn**, Rahu and Mercury placed in adjoining houses, all inimical to him, sometime after birth the native will undergo great trials to survive and if he **outlives**, he will be an inventor of destructive material causing great turmoil in the world as the material will create poisonous fumes. If this combination has the Moon in Capricorn or Aquarius every time the Sun transits these signs there will be great trouble in the world causing great harm to humanity.

The disciple wanted to know how an individual's chart could indicate the fate of the country:

The Master answers:

When Jupiter transits Cancer and Saturn, Rahu combine in Leo with the Sun, Mercury in Cancer or Leo and with Mars in Gemini or Cancer and during this critical period, the Moon crosses Capricorn and Aquarius the northern part of the country will face great flood havoc causing loss of life and properties. In the southern region there will be quarrels, between the downtrodden and the upper class rounded over with troubles from lower order of deities. In another part of the country, there will be explosions which will outspread and the poisonous gases causing death on a large scale.

The Time Lord (**Kala Purusha**), Rahu having occupied the fiery sign Leo all alone with **Saturn** in **12th** (Poisons) moves around and only those who are blessed by God will survive while all others will perish.

The North, the cold places like the Himalayan regions and the explosive

areas suffer most.

The native will have contact with great politicians, rich millionaires and this friendship of all high placed officials will give him great prestige. He will be married round about 24 or 31. He will have two wives, own conveyances and live a jolly life upto 60 and if he outlives the trouble in that year, he will end his career at 63.

As Jupiter and Mercury are conjunct in Scorpio, the native is devotional in temperament. He will be employed in a political or treasury establishment.

As Mars is exalted and aspects and opposes **Saturn** in Cancer **no, matter** how much he may earn, he will not save much.

He will own a house as Mercury and Jupiter are conjunct.

The native's first wife **will** be a trecherous woman and she will cheat her husband and have sex relations with a man other than her husband. The native will, therefore, abandon her and marry a second woman.

The disciple wants to know how the argument runs for the first wife's bad character.

The Master answers:

\*

The Sun is in libra. Its lord Venus is in Leo. The 7th Lord to Jupiter is also Venus (Taurus) and in between the Sun and Venus there is Rahu the great magician and **Venus** is caught between **Saturn** in Cancer and Rahu in Virgo. The native had, therefore, no happiness from the first wife.

The initial difficulty of having no peace of mind is caused by the conjunction of Mercury with Jupiter both being inimical to each other.

This life will run on till about 46-47 when Jupiter in his fourth round contacts Rahu.

## CHART 448

Here as Jupiter is in Gemini with Mars in Aries and the Moon in Cancer, the native will have both brothers and sisters.

**Saturn** is in Leo and the Sun in Capricorn. **Saturn** contacts Ketu in Virgo, Venus in Scorpio and Mercury in Capricorn, so the native will first take up agriculture and then trade in wines etc. This latter profession will yield unexpected profits.

Another example:

Mars and **Saturn** in Cancer, Ketu in Libra, the Moon in Scorpio with Venus in 7th (Taurus). This is a Female chart. The husband represented by Mars is in debilitation. As Mars and the Moon have exchanged places, when Mars comes to Scorpio he aspects Venus. This indicates sudden income. Venus and the Moon are inimical. The exchange of places between the Moon and Mars will give opportunities for gambling so the husband was given to gambling but always he lost as Mars was in debilitation. The husband traded in wines, jaggery etc., all sweet.

In the present case as Jupiter has the Moon in the second, **Saturn** in the third to his place and Ketu in the fourth, the native could never have happy sex relations with his first wife. Only when Jupiter contacts Venus in Scorpio and when the native marries another woman he will have marital harmony.

As **Saturn** has exchanged places with the Sun, when **Saturn** transits Capricorn his conjunction with Mercury helps the native to own a house and some landed property. As Venus is in the 11th to Capricorn and 4th to Leo, he will become very rich and also own a beautiful house to live in.

Generally speaking, if **Saturn** contacts the Moon, Mercury and Ketu (Mars and Sun) in a sequence, the native will be a wanderer till about 35th year. The whole period will be troublesome when he will suffer ill-health and get ill-fame.

Many horoscopes where Venus is in 7th to **Saturn** have proved the fact that the native will have very little happiness.

CHART 449

He will always aim high to get for himself a good name. The other planets, Jupiter contacts after **Saturn**, are Venus and Mercury in

Scorpio: This will make the native fall for the charms of the opposite sex. The Sun is placed in Jupiter's house, in the second to Venus and Mercury. He will own multistoreyed buildings and live a prosperous life.

As Jupiter has no planets in 12th and the second to him the native will have no sisters or brothers. Further, as Mars denoting brothers and sisters is in Libra, an enemy camp, the native will be denied brothers and sisters.

From 24-30 the life will be ordinary. At 30, a turn to better life will come. He will have 2-3'issues.

The wife will be of an excellent character (Venus conjunct Mercury) and always devoted to God (the Sun in second to Venus with Jupiter's aspect). She will always be obedient to her husband. (Venus in the house of Mars). She will be beautiful and charitable.

Saturn next moves over two vacant houses and contacts Venus in Gemini indicating financial improvements, and the contact of Jupiter and the Sun in the next house gives the native a lift to a high post in Government. Logically Saturn's contact with Venus brings marital happiness.

The Sun in 2nd to Venus indicates a rich parentage. The native inherited this happiness by Jupiter's placement in conjunction with the Sun.

The 7th house to Saturn's placement being a friend's house occupied by Venus, another friend, with Mercury in the 9th to him and the Moon in the 12th, the native got not only wealth, name and fame but a dignified status in life.

From the Master's observations on the entrances to the town or village and the various residential quarters, all about the places and people living in the houses is described with some illustrations.

For the gaining of worldly knowledge the Master and disciple have started on the first journey to visit holy places and rivers.

(1) Just on entering a **village—the** Master spoke. "This place is one where people are wedded to *Dharma*, (High-moral life), and rich and well educated."

(2) At another place the Master remarked—The persons living in this place are morally **deprived**, give no end of trouble to saints and meditants, and they have not known what charity is, and what compassion is. They are bent on doing wrong action.

(3) At the entrance with the house of an unknown person the Master told the house holder, "You have no sons, you have done such bad deeds, you have to reap the fruit thereof."

(4) At the next house he remarked that the owner's sister had sex relations with a person of another caste, and so had earned a bad name. Your neighbours have some trouble and are unable to talk.

(5) Next the Master visited a shopkeeper and **told** him "You cannot gain by this trade. Those who worked here had losses. You will have to migrate to another place."

(6) To another house holder the Master said "You have been suffering a great deal for the last 6 months. You have undergone humiliation and financial losses. Things will be alright six months hence".

(7) To another household the Master said. "One woman of this house has run away from house on account of adultery".

(8) The Master saw a temple and remarked. "The man who built this temple got the funds by illegal and immoral ways. He was morally bad, attracted by women, and suffered from **syphilis** and other sex troubles." On enquiry in the **village** it was found to be perfectly true.

(9) Remarking about another house the Master said. "However much

money may come, poverty cannot be wiped out by the **owner**. There is Rahu creating trouble for this house.

Looking at another, the owner was advised to shift the main entrance to a side in order to have happy days.

(10) At another house the Master said ".. Rich and educated men live in this house. There will be a marriage celebration in his year..".
