For the first time in India a revolutionary new surface material technology **CELSUS** blended with fine craftsmanship, innovative and patented Japanese technology. It provides splendid attire to the surfaces with its pure magical look and feel.

Not only does it provide your interior surfaces a look which is more vivid, bright and vibrant, it also makes them fingerprint inconspicuous and stain resistant with its unique lustre on its sheen. This innovative surface technology patented by AICA has garnered both the iF Design Awards (from the International Forum Design in Germany) and also the Good Design Award (G Mark from Japan Industrial Design Promotion Organization).

Available in select special finishes of AICA Japan.

CHEMITECT

Now in India

Japanese Expressions Through Technological Innovation

AICA Chemitect laminate is designed to provide advanced protection against damaging chemicals in harsh environments. Economical, durable, stylish and easy to maintain, this innovative Product is ideal for horizontal and vertical applications. The surface features improved chemical resistance to acids, alkalis, corrosive salts, and other destructive or staining substances. This product is best suited for horizontal surfaces such as counters, laboratory benches and tabletops having exposure to chemicals. Also ideal for vertical surfaces like cabinets, casework fronts, wall splash back panels or screens etc.

Manufactured using the unique technology, AICA Chemitect is the perfect choice for Institutional usage like medical institutes, laboratories etc.

- Suitable Application Areas:
- > Medical Institutes
 - > Hospitals
 - > Nurses' stations
 - > Physician and dentist's examining and treatment rooms
 - > Laboratories and pathologists' workrooms
 - > Educational laboratories
 - > Photography labs and darkrooms
 - > Product testing facilities
 - > Beauty salons

Highly chemical-resistant decorative panels

Can be used on laboratory countertops in schools, institutions, hospitals, and research facilities, as well as on science classroom fixtures.

TECHNICAL DATA

Sunmica 1.0 mm

Description :

'Sunmica' branded synthetic resin bonded laminated sheets are manufactured to the most stringent Indian & International standards like IS, BS, etc. The State-of-the-art products include trend setting & innovative range of Wood Grains, Pastels, Design & Texture apart from the regular finishes viz. Suede, Format, Texture, Metallic & Gloss. It is available in 2440mm x 1220 mm sizes.

Sr. No.	Property	Property Attribute	Unit	Requirement as per IS 2046:1995	Typical Values

5	Resistance to Impact by small diameter ball	Spring force	N (Min.)	20	>20
6	Resistance to cracking	Appearance	Grade (Min.)	4	4
7	Resistance to scratching	Load	N (Min.)	2	2.5
8	Resistance to staining	Appearance Group 1 & 2	Grade (Min.)	5	5
		Group 3 & 4	Grade (Min.)	4	5
9	Resistance to colour change in Xenon arc light	Wool standards	Grade (Min.)	6	6
10	Resistance to cigarette burns	Appearance	Grade (Min.)	3	3
11	Resistance to steam	Appearance	Grade (Min.)	4	5

Features:

1. Cleanability - Easy to Maintain
2. Wear Resistance-Good abrasion resistance for long life
3. Excellent stain resistance gives easy maintenance
4. Easy to install, good machinability

Read colour pattern nos. as SUNMICA (1.5 mm) / (1.0 mm)

Colour patterns ending with suffix "J" indicates seasonal patterns. Please check availability before confirming orders.

Description

'Sunmica' branded FGFR (Fire Retardant Flooring Grade) Laminates are synthetic resin bonded laminated sheets and are manufactured with special resin formulations to delay spread of fire & to reduce static building in electronic operating surface. Special grade FGFR Complies fire properties as per BS finish & Part 5, 6, & 7. It is available in SF finish & in 2440 mm x 1220 mm size.

Features:

1. Excellent fire resistance.
2. Excellent antistatic properties.
3. Excellent Wear Resistance.
4. Excellent stain resistance.
5. Easy to install, good machinability.

Description

'Curvica': Post forming grade

A technological break-through, introduced in India by our brand 'Curvica', ensures there is no need that furniture design is restricted to straight sides as can be moulded to follow rounded edges on furniture.

Features:

1. Post formable laminate with minimum radius
2. Standard post forming temperature 160°C
3. Can be bended in various shapes such as round, bull's nose, reverse bending, etc.
4. Thickness available 0.6 mm & 0.7 mm in size 2440 mm x 1220 mm.
